TODAY

A walkthrough first, then your comments

01 Site plan

Where the two play areas sit and how they fit the existing park.

02 Site renderings

The overall look of the park for both layout options.

03 Ages 2-5

Train-themed play, spring riders, kids table and a music cottage.

04 Ages 5-12

Two composite designs for you to compare.

05 Swing area

A six-seat swing frame with belt, infant and ADA seats.

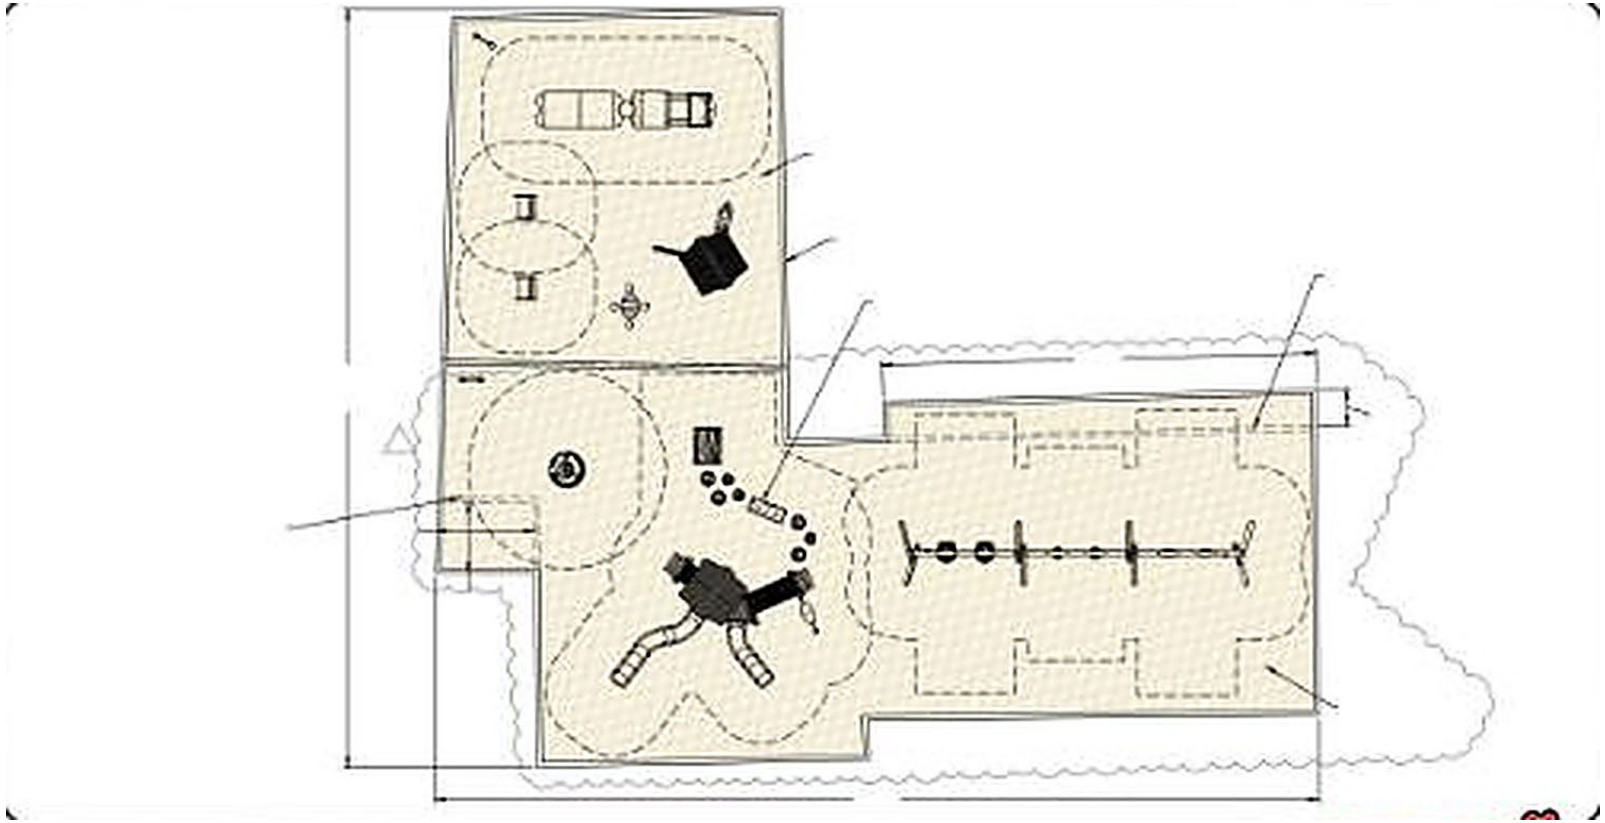
06 Public comment

Your input on equipment, colors and access.

We will walk through every piece of equipment first, then open the floor to public comment.

SITE PLAN

Site Plan: Option 1



4,855 SF

Total engineered wood fiber surfacing

1,406 SF

Ages 2–5 year area

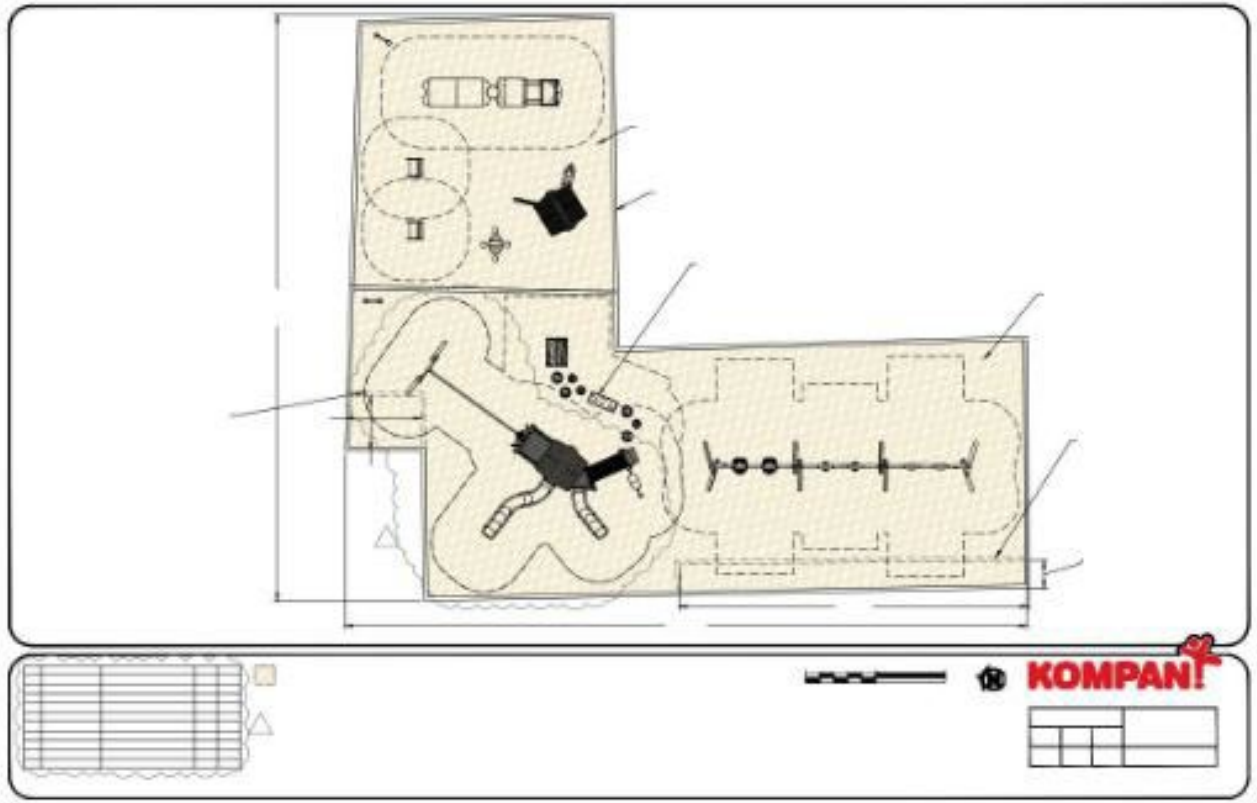
3,449 SF

Ages 5–12 year & swing area

Smaller composite plus the Tipi carousel; existing borders stay and the site expands.

SITE PLAN

Site Plan: Option 2



4,855 SF

Total engineered wood fiber surfacing

1,406 SF

Ages 2–5 year area

3,449 SF

Ages 5–12 year & swing area

Larger composite with a track ride and no group spinner; existing borders stay.

OPTION 1

Option 1 renderings

Option 1

Smaller composite with group spinner

2	2	2
Belt seats	Infant seats	ADA seats

- The swings sit in the expanded part of the site, with a new border in front of them.

RENDERINGS

Overall site renderings

Option 1

Smaller composite with group spinner

Option 2

Larger composite without spinner

PUBLIC COMMENT

Where we want your input:

AGES 2-5	Are the horse spring riders, kids table and theatre and music cottage the activities you prefer?
AGES 5-12	Which design do you prefer: Option 1 with a smaller composite and group spinner, or Option 2 with a larger composite and no spinner?
SWINGS	Is the configuration right: 2 belt seats, 2 infant seats and 2 ADA seats?
COLORS	What do you think of the red roofs and natural-finish wood?
ACCESS	Questions about ADA access to the playground are welcome.

Thank you!

Your input shapes the final playground design.
