Subject: RE: Question about 7184 Clifton Road

Good Afternoon Melissa,

The only well on the site, existing or proposed, is well number 152740203 in FIDO, and it was approved 04-22-2019. I attached the "as-built" original well was abandoned some time ago.

At this time no one has applied for a new well construction permit. If someone plans on drilling a new well they will need to contact a Professional Water Well Service Provider to have a new well construction package drawn up. This package will need to be submitted to this office for review.

Let me know if you need anything else.

Thank you,

Eric Hoppis, Environmental Health Specialist
