Sec. 4-1. DEFINITIONS AND REQUIREMENTS.

- a. General definitions. Except as otherwise provided by subsection b. of this section, the words and phrases defined in this section when used in this Chapter shall have the following meanings, unless a different meaning clearly is required by the context:
1. "Affiliated group" means:
 - A. One or more chains of corporations subject to inclusion connected through stock ownership with a common parent corporation which is a corporation subject to inclusion if:
 - i. Stock possessing at least eighty percent of the voting power of all classes of stock and at least eighty percent of each class of the nonvoting stock of each of the corporations subject to inclusion, except the common parent corporation, is owned directly by one or more of the other corporations subject to inclusion; and
 - ii. The common parent corporation directly owns stock possessing at least eighty percent of the voting power of all classes of stock and at least eighty percent of each class of the nonvoting stock of at least one of the other subject to inclusion corporations. As used in this subdivision, the term "stock" does not include nonvoting stock which is limited and preferred as to dividends; the phrase "corporation subject to inclusion" means any corporation within the affiliated group irrespective of the state or country of its incorporation; and the term "receipts" includes gross receipts and gross income.
 - B. Two or more corporations if five or fewer persons who are individuals, estates or trusts own stock possessing:
 - i. At least eighty percent of the total combined voting power of all classes of stock entitled to vote or at least eighty percent of the total value of shares of all classes of the stock of each corporation; and
 - ii. More than fifty percent of the total combined voting power of all classes of stock entitled to vote or more than fifty percent of the total value of shares of all classes of stock of each corporation, taking into account the stock ownership of each such person only to the extent such stock ownership is identical with respect to each such corporation.
 - C. When one or more of the corporations subject to inclusion, including the common parent corporation is a nonstock corporation, the term "stock" as used in this subdivision shall refer to the nonstock corporation membership or membership voting rights, as is appropriate to the context.
 2. "Assessment" means a determination as to the proper rate of tax, the measure to which the tax rate is applied, and ultimately the amount of tax, including additional or omitted tax, that is due. An assessment shall include a written assessment made pursuant to notice by the Town Treasurer or a self-assessment made by a taxpayer upon the filing of a return or otherwise not pursuant to notice. Assessments shall be deemed made by the Town Treasurer when a written notice of assessment is delivered to the taxpayer by the Town Treasurer, or mailed to the taxpayer at his last known address. Self-assessments shall be deemed made when a return is filed, or if no return is required, when the tax is paid. A return filed or tax paid before the last day prescribed by this Chapter for the filing or payment thereof shall be deemed to be filed or paid on the last day specified for the filing of a return or the payment of tax, as the case may be.
 3. "Base year" means the calendar year preceding the license year, except for contractors subject to the provisions of Va. Code § 58.1-3715 or for a different period for measuring the gross receipts of a business, such as for beginning businesses filing estimated license applications pursuant to sec. 4-5. of this Chapter.

4. "Business" means a course of dealing which requires the time, attention and labor of the person so engaged for the purpose of earning a livelihood or profit. It implies a continuous and regular course of dealing, rather than an irregular or isolated transaction. A person may be engaged in more than one business. The following acts shall create a rebuttable presumption that a person is engaged in a business: (i) advertising or otherwise holding oneself out to the public as being engaged in a particular business or (ii) filing tax returns, schedules and documents that are required only of persons engaged in a trade or business.
5. "Calendar year" means the period beginning on January 1 of each year and ending on December 31 of each year.
6. "Definite place of business" means an office or a location at which occurs a regular and continuous course of dealing for thirty consecutive days or more. A definite place of business for a person engaged in business may include a location leased or otherwise obtained from another person on a temporary or seasonal basis and real property leased to another. A person's residence shall be deemed to be a definite place of business if there is no definite place of business maintained elsewhere and the person is not subject to licensure as a peddler or itinerant merchant.
7. "Financial services" means the buying, selling, handling, managing, investing, and providing of advice regarding money, credit, securities, or other investments.
8. "Gross purchases" means all goods, wares and merchandise received for sale at each definite place of business of a wholesale merchant. Gross purchases shall include all costs incurred in the manufacture or acquisition of property of any nature or description acquired (i) for resale to retail merchants or (ii) for sale at wholesale to other wholesale merchants, institutional, commercial or industrial users. Gross purchases does not mean any costs incurred for the acquisition of property of any nature or description which, when sold by a wholesale merchant, is subject to taxation by the Virginia Retail Sales and Use Tax Act, Va. Code §§ 58.1-600 through 58.1-639, as amended, or by any similar retail sales and use tax. A wholesale merchant may elect to report the gross receipts from the sale of manufactured goods, wares and merchandise if it cannot determine the cost of manufacture or chooses not to disclose the cost of manufacture.
9. "Gross receipts" means the whole, entire, total receipts, without deduction. Gross receipts consist of the gross receipts from any business, profession, trade, occupation or calling, including cash, credits, fees, commissions, brokerage charges and rentals, and property of any kind, nature or description from either sales made or services rendered without any deduction therefrom on account of cost of the property sold, the cost of material, labor or services or other costs, interest or any expense whatsoever, and such term shall include in case of merchants the amount of the retail value of supplies and goods furnished to or used by the licensee or his family or other person for which no charge is made. Gross receipts include receipts from all sales and services rendered or conducted from a place of business within the Town to persons in the Town or to persons outside the Town and all other receipts from all activities having a taxable situs within the Town for local license taxation authorized by Virginia law. For the purposes of this definition, receipts from rendering sales and services to persons include all gross receipts from government agencies, as well as those entities described within the definition of "person" provided by this section.
10. "License year" means the calendar year for which a license is issued for the privilege of engaging in business.
11. "Person" means any individual, firm, partnership, corporation, company, association or joint stock association. Person includes any trustee, receiver, assignee or personal representative thereof carrying on or continuing a business profession, trade, occupation or calling, but shall not include a court-appointed trustee, receiver or personal representative in the liquidation of assets for immediate distribution or a sergeant or sheriff, or any deputy, selling under authority of process or writ of a court of justice.
12. "Real estate services" means providing a service with respect to the purchase, sale, lease, rental, or appraisal of real property.
13. "Tax commissioner" means the chief executive officer of the Virginia Department of Taxation, or delegated representative.

However, this exclusion pertaining to organizations which are exempt from the federal income tax pursuant to § 501(c)(6) of the United States Internal Revenue Code does not exempt unrelated business income received by those organizations which is taxable pursuant to § 501(b) of the United States Internal Revenue Code, as amended.
- N. Gross receipts do not include:
1. The income of a charitable nonprofit organization except to the extent an organization has receipts from an unrelated trade or business the income of which is taxable under Internal Revenue Code § 511 et seq. For the purpose of this subsection, "charitable nonprofit organization" means an organization which is described in Internal Revenue Code § 501(c)(3) and to which contributions are deductible by the contributor under Internal Revenue Code § 170, except that educational institutions shall be limited to schools, colleges and other similar institutions of learning.
 2. On or measured by gifts, contributions, and membership dues of a nonprofit organization. However, all funds used for operating expenses, retained margins and reserves of any such cooperative association are gross receipts which are taxable in accordance with sec. 4-30. of this Chapter. Any cooperative money lender whose gross receipts are subject to taxation in accordance with this subparagraph shall submit such documentary proof as required by the Town Treasurer that the cooperative money lender is duly organized, registered and doing business as a cooperative association in the manner provided herein.
- Q. Gross receipts do not include donations, gifts or contributions made without consideration to a nonprofit organization described in Internal Revenue Code § 501.

This exclusion shall apply to interest on bank accounts of the business, and to interest, dividends and other income derived from the investment of its own funds in securities and other types of investments unrelated to the licensed privilege. This exclusion shall not apply to interest, late fees and similar income attributable to an installment sale or other transaction that occurred in the regular course of business.
 - T. Gross receipts do not include general and administrative intra-company receipts or intra-company reimbursements or transfer payments.

A rebate or other incentive offered to induce the recipient to purchase certain goods or services from a person other than the offeror, and which the recipient assigns to the licensee in consideration of the sale goods and services shall not be considered a rebate or discount to the licensee, but shall be included in the licensee's gross receipts together with any handling or other fees related to the incentive.
 - W. Gross receipts do not include any amount representing the liquidation of a debt or conversion of another asset to the extent that the amount is attributable to a transaction previously taxed (e.g., the factoring of accounts receivable created by sales which have been included in taxable receipts even though the creation of such debt and factoring are a regular part of its business).
 - X. Gross receipts do not include any amount representing returns and allowances granted by the business to its customer.

The calculation of gross purchases and gross receipts for annual license tax or fee purposes shall be on a cash, a modified accrual or an accrual basis used for the preceding calendar year, but the basis used for such calculation of gross receipts for each person shall be the same system of accounts used by that person for federal income tax purposes.
 - d. Any person claiming the benefit of any exclusion, exemption, restriction or limitation to the taxes or fee imposed by this Chapter shall bear the burden of showing that the exclusion, exemption, restriction or limitation is applicable to their claim.
 - e. Where, before the expiration of the time prescribed for the assessment of any license tax imposed pursuant to state law, both the Town Treasurer and the taxpayer have consented in writing to its assessment after such time, the tax may be assessed at

any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

- f. Notwithstanding Va. Code § 58.1-3903, the Town Treasurer shall assess the local license tax omitted because of fraud or failure to apply for a license for the current license year and the six preceding license years.

Sec. 4-2. PERSONS SUBJECT TO BUSINESS LICENSING.

- a. Except as otherwise provided by this Chapter or by state law, the license taxes or fee imposed by this Chapter are imposed on every person engaged in any business, profession, trade, occupation or calling which has a taxable situs in the Town.
- b. Every person shall apply for a license for each business or profession when engaging in a business in the Town if the person has a definite place of business in the Town; or there is no definite place of business anywhere and the person resides in the Town.

Sec. 4-3. APPLICATION FOR LICENSE; RENEWAL OF LICENSE; REQUIREMENTS.

- a. Every person required to obtain a license by this Chapter shall make application for any license or licenses to the Town Treasurer. All applications for new licenses or for the renewal of licenses shall be submitted by mail or in person to the Town Treasurer.
- b. The Town Treasurer shall furnish the necessary forms which shall be properly filled in with such information as the Town Treasurer may require. Every applicant for a license to conduct any business, profession, trade or occupation under the provisions of this Chapter shall furnish the Town Treasurer the information necessary to assess a license tax or fee on the basis provided by law. Such information shall be furnished in all instances regardless of the amount of gross receipts or type of business.
 - 1. Such information shall be filed as follows:
 - A. For license tax year 1997 and preceding years, license applications shall be filed on or before January 31 of each year or within seventy-five calendar days of the commencement of the business operation.
 - B. For the license year commencing January 1, 1998 and the years thereafter, license applications shall be filed on or before March 1 of each year or within seventy-five calendar days of the commencement of the business operation.
 - 2. All license information shall be submitted in writing on forms prescribed by the Town Treasurer and shall include, but not be limited to, the applicant's signature, correct name and trade name, correct mailing address, the correct business address, the nature, type and location of the business, profession, trade or occupation to be pursued, market area to be served, number of persons employed, and a recording of gross receipts for the preceding calendar year.
- c. In the event that the filing due date, as set forth in subsection a of this section, or seventy-five days after the commencement of a business falls on a Saturday, Sunday, or legal holiday, then the application required to be filed by subsection a of this section shall be filed no later than the next succeeding day on which the Town Treasurer's office is open.
- d. In the event of a failure or refusal to file the required necessary information with the Town Treasurer, the Town Treasurer shall assess such license tax upon the best information he can obtain (adding thereto the penalty prescribed by law).
- e. The Town Treasurer may grant an extension of time in which to file an application for a license, for reasonable cause. The extension may be conditioned upon the timely payment of a reasonable estimate of the appropriate tax; the tax is then subject to adjustment to the correct tax at the end of the extension, together with interest from the due date until the date paid and, if the estimate submitted with the extension is found to be unreasonable under the circumstances, with a penalty of ten percent of the portion paid after the due date.

- f. Prior to January 1, 1998, upon receipt of the application from the taxpayer the Town Treasurer shall compute the license tax due and bill the taxpayer for such tax. Effective January 1, 1998, the taxpayer shall compute the license tax due and remit payment of such tax and the license application and such information required under subsection b.2. of this section no later than March 1 of the tax year or, in the case of a beginning business, the tax shall be paid within 75 days of the date the business began in the Town of Clifton.

Sec. 4-4. SEPARATE LICENSE REQUIRED FOR EACH PLACE OF BUSINESS OR OFFICE; EXCEPTION.

A separate license shall be required for each definite place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied: (i) each business or profession is subject to licensure at the location and has satisfied any requirements imposed by state law or other provisions of the ordinances of the Town; (ii) all of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate; and (iii) the taxpayer agrees to supply such information as the Town Treasurer may require concerning the nature of the several businesses and their gross receipts.

Sec. 4-5. COMPUTATION OF ANNUAL LICENSE TAXES: BEGINNING BUSINESS; RENEWAL OF LICENSES.

- a. Beginning business. Notwithstanding the provisions of section 4-1.c. of this Chapter, every person beginning a business, profession, trade, occupation or calling which is subject to a license tax or fee under the provisions of this Chapter, shall estimate the amount of the gross receipts or gross purchases that the person applying for a license expects to receive between the date of beginning business and the end of the then current license year, and the license tax or fee for the current year also shall be computed on such estimate. Whenever a license tax or fee is computed upon estimated gross receipts or gross purchases, such estimate shall be subject to adjustment by the Town Treasurer at the end of the tax year to reflect actual gross receipts or gross purchases and the Town Treasurer shall give credit for any overpayment on the license tax or fee payable the following year. Similarly, underestimates will be adjusted to reflect actual gross receipts or actual gross purchases and the amount underestimated will be added to the license tax for the succeeding year. License tax shall be levied according to the license fee table set forth under sec. 4-7. or the tax rates established within this Chapter.
- b. Renewal of license. The license taxes and fees imposed by this Chapter shall be imposed annually on all phases of any business activity required to be licensed by this Chapter. Except as otherwise provided by this Chapter or by state law, the renewal of the annual license tax for each licensable business activity shall be computed by multiplying annual gross receipts or gross purchases from the preceding calendar year, as established in accordance with sec. 4-1.c., by the tax rate set forth in this Chapter which is appropriate for the type of business, profession, trade, occupation or calling to be licensed.

Sec. 4-6. SITUS OF GROSS RECEIPTS; APPORTIONMENT; AGREEMENTS.

- a. Situs. Whenever the tax imposed by this Chapter is measured by gross receipts, the gross receipts included in the taxable measure shall be only those gross receipts attributed to the exercise of a privilege subject to licensure at a definite place of business within the Town. In the case of activities conducted outside of a definite place of business, such as during a visit to a customer location, the gross receipts shall be attributed to the definite place of business from which such activities are initiated, directed, or controlled. The situs of gross receipts for different classifications of business shall be attributed to one or more definite places of business or offices as follows:
1. The gross receipts of a contractor shall be attributed to the definite place of business at which his services are performed, or if his services are not performed at any definite place of business, then the definite place of business from which his services are directed or controlled, unless the contractor is subject to the provisions of Va. Code § 58.1-3715.
 2. The gross receipts of a retailer or wholesaler shall be attributed to the definite place of business at which sales solicitation activities occur, or if sales solicitation activities do not occur at any definite place of business, then the definite place of business from which sales solicitation activities are directed or controlled; however, a wholesaler or distribution house subject to a license tax measured by purchases shall determine the situs of its purchases by the

definite place of business at which or from which deliveries of the purchased goods, wares and merchandise are made to customers. Any wholesaler who is subject to license tax in two or more localities and who is subject to multiple taxation because the localities use different measures, may apply to the Virginia Department of Taxation for a determination as to the proper measure of purchases and gross receipts subject to license tax in each locality.

3. The gross receipts of a business renting tangible personal property shall be attributed to the definite place of business from which the tangible personal property is rented or, if the property is not rented from any definite place of business, then to the definite place of business at which the rental of such property is managed.
 4. The gross receipts from the performance of services shall be attributed to the definite place of business at which the services are performed or, if not performed at any definite place of business, then to the definite place of business from which the services are directed or controlled.
- b. Apportionment. If the licensee has more than one definite place of business and it is impractical or impossible to determine to which definite place of business gross receipts should be attributed under the general rule, the gross receipts of the business shall be apportioned between the definite places of businesses on the basis of payroll. Gross receipts shall not be apportioned to a definite place of business unless some activities under the applicable general rule occurred at, or were controlled from, such definite place of business. Gross receipts attributable to a definite place of business in another jurisdiction shall not be attributed to the Town solely because the other jurisdiction does not impose a tax on the gross receipts attributable to the definite place of business in such other jurisdiction.
- c. Agreements. The Town Treasurer may enter into agreements with any other political subdivision of Virginia concerning the manner in which gross receipts shall be apportioned among definite places of business. However, the sum of the gross receipts apportioned by the agreement shall not exceed the total gross receipts attributable to all of the definite places of business affected by the agreement. Upon being notified by a taxpayer that its method of attributing gross receipts is fundamentally inconsistent with the method of one or more political subdivisions in which the taxpayer is licensed to engage in business and that the difference has, or is likely to, result in taxes on more than one hundred percent of its gross receipts from all locations in the affected jurisdictions, the Town Treasurer shall make a good faith effort to reach an apportionment agreement with the other political subdivisions involved. If an agreement cannot be reached, either the Town Treasurer or taxpayer may seek an advisory opinion from the Virginia Department of Taxation pursuant to Va. Code § 58.1-3701; notice of the request shall be given to the other party. Notwithstanding the provisions of Va. Code § 58.1-3993, when a taxpayer has demonstrated to a court that two or more political subdivisions of Virginia have assessed taxes on gross receipts that may create a double assessment within the meaning of Va. Code § 58.1-3986, the court shall enter such orders pending resolution of the litigation as may be necessary to ensure that the taxpayer is not required to pay multiple assessments even though it is not then known which assessment is correct and which is erroneous.

Sec. 4-7. WHEN LICENSE TAXES AND FEES PAYABLE.

If any person shall begin a business, profession, trade, occupation or calling upon which an annual license tax or fee is imposed under this Chapter after January 1 of each license tax year, then such license tax or fee shall become due immediately, and payment shall be made within seventy-five calendar days of the time such person commences business.
 2. Renewal of license. Notwithstanding subsection a.1., of this section,
 - A. For license tax year 1997 and preceding years, license taxes on are due and payable on or before April 15;
 - B. For the license year commencing January 1, 1998 and the years thereafter, payment of the license tax or fee shall be included as part of the annual license application as set forth in section 4-3. of this Chapter.

Payment shall be made at the time of submission of the annual license application to the Town Treasurer, but in no circumstance later than March 1 of each year.

- b. In the event that the payment due date, as set forth in subsection a of this section, or seventy-five calendar days after the commencement of a business falls on a Saturday, Sunday, or legal holiday, then the required tax or fee required shall be paid on the next succeeding day on which the Town Treasurer's office is open.

Sec. 4-8. PAYMENT BY CORPORATIONS AND PARTNERSHIPS.

All licenses issued and license taxes imposed under the provisions of this Chapter upon the gross receipts of a business, trade, occupation or calling conducted by a corporation or partnership shall be issued to and paid by the corporation or partnership, and when so paid, it shall be deemed to discharge 1. the license tax liability of the members of such partnerships insofar as it relates to partnership business or 2. the license tax liability of the employees of such corporations as it relates to the corporation business.

Sec. 4-9. LEVY OF PENALTIES AND INTEREST; WAIVER OF PENALTIES.

- a. Levy of penalties. A penalty of ten percent of the tax may be imposed upon the failure to file an application or the failure to pay the tax by the due date established by sec. 4-7. Only the late filing penalty shall be imposed by the Town Treasurer if both the application and payment are late; however, both penalties may be assessed if the Town Treasurer determines that the taxpayer has a history of noncompliance. In the case of an assessment of additional tax made by the Town Treasurer, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud, reckless or intentional disregard of the law by the taxpayer, there shall be no late payment penalty assessed with the additional tax. If any assessment of tax by the Town Treasurer is not paid within thirty days, the Town Treasurer may impose a ten percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed, or if imposed, shall be abated by the Town Treasurer. In order to demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control.
 1. "Acted responsibly" means that: a. the taxpayer exercised the level of reasonable care that a prudent person would exercise under the circumstances in determining the filing obligations for the business and b. the taxpayer undertook significant steps to avoid or mitigate the failure, such as requesting appropriate extensions (where applicable), attempting to prevent a foreseeable impediment, acting to remove an impediment once it occurred, and promptly rectifying a failure once the impediment was removed or the failure discovered.
 2. "Events beyond the taxpayer's control" include, but are not limited to, the unavailability of records due to fire or other casualty; the unavoidable absence (e.g., due to death or serious illness) of the person with the sole responsibility for tax compliance; or the taxpayer's reasonable reliance in good faith upon erroneous written information from the Town Treasurer who was aware of the relevant facts relating to the taxpayer's business when he provided the erroneous information.
 3. In no case will the penalty for failure to file a license application by the date established in sec. 4-3. of this Chapter, nor the penalty for failure to pay the tax by the date established in sec. 4-7. of this Chapter exceed the amount of the tax due.
 4. A penalty of ten percent shall be imposed upon any underpayment of the taxes assessable by this Chapter.
- b. Levy of interest. Interest shall be charged on the late payment of the tax, or any portion thereof, from the due date until the date paid without regard to fault or other reason for the late payment.
 1. Interest will accrue on the sum of the unpaid tax and penalty for the first year at the rate of ten percent and for all following years either at the rate of ten percent per year or at the rate established pursuant to § 6621 of the United States Internal Revenue Code, as amended, whichever is greater. Interest will be computed from the first day following the day on which the tax was payable.

2. No interest shall accrue on an adjustment of estimated tax liability to actual liability at the conclusion of a base year. No interest shall be charged on a late payment, provided the late payment is made not more than thirty days from the due date of the tax.
- c. Waiver of penalties. The Town Treasurer may waive any penalty for the failure to file a license application in accordance with sec. 4-3. if such failure was not the fault of the taxpayer. The Town Treasurer may waive any penalty for failure to pay a license tax or fee in accordance with sec. 4-7. if such failure was not the fault of the taxpayer.

Sec. 4-10. COLLECTION OF ASSESSMENTS; REFUNDS.

- a. Collection of assessments.
1. Taxes and penalties herein provided shall be assessed and collected in the manner provided by law for the enforcement of the collection of other taxes. In addition, upon nonpayment, reasonable attorney's or collection agency's fees may be recovered by the Town, but such fees shall not exceed twenty percent of the delinquent tax bill. However, attorney's fees shall be added only if such delinquency is collected by action at law or suit in equity.
 2. No tax assessment shall be delinquent and subject to collection during the pendency of any administrative appeal made to the Town Treasurer in accordance with Va. Code § 58.1-3980, so long as the administrative appeal is filed within ninety days of the date of the assessment. Any such appeal shall be in writing. Any such administrative appeal shall state the factual or legal basis for the appeal, and it shall provide copies of any documents which support the claim. If an administrative appeal has been filed in accordance with this subsection, no tax assessment shall be deemed delinquent and subject to collection for a period of thirty days after the date of the final determination of the appeal by the Town Treasurer. Nothing in this paragraph shall be construed to preclude the assessment or refund, following the final determination of such appeal, of such interest as otherwise may be provided by general law as to that portion of a tax bill which has remained unpaid or was overpaid during the pendency of such appeal and is determined in such appeal to be properly due and owing.
 3. The period for collecting any license tax shall not expire prior to the period specified in Va. Code § 58.1-3940, two years after the date of assessment if the period for assessment has been extended pursuant to sec. 4-1.e. of this Chapter, two years after the final determination of an appeal for which collection has been stayed pursuant to sec. 4-11. of this Chapter, or two years after the final decision in a court application pursuant to Va. Code § 58.1-3984 or similar law for which collection has been stayed, whichever is later.
- b. Refunds. Except as otherwise provided by this Chapter or by state law, there shall be no refunds of any license tax paid under the provisions of this Chapter.
1. In the event a person permanently ceases to engage in a business, profession, trade, occupation or calling within the Town during a year for which a license tax has already been paid, that person shall be entitled, upon application, to a refund for that portion of the license tax already paid, prorated on a monthly basis so as to ensure that the licensed privilege is taxed only for that fraction of the year during which it is exercised within the Town. For the purposes of proration, a period of more than one-half of a month (at least sixteen days) shall be considered a full month and a period of less than one-half of a month shall not be counted. However, if a person has obtained a license by payment of a license fee pursuant to sec. 4-7.d. of this Chapter, then no refund shall be allowed.
 2. No interest shall be paid on a refund, provided the refund is made not more than thirty days from the date of the payment that created the refund or the due date of the tax, whichever is later.
 3. Whenever an assessment of additional or omitted tax by the Town Treasurer is found to be erroneous, all interest and penalty charged and collected on the amount of the assessment found to be erroneous shall be refunded together with interest on the refund from the date of payment or the due date, whichever is later. Interest shall be paid on the refund of any license tax from the date of payment or due date, whichever is later, whether attributable to an amended return or other reason. Interest on any refund shall be paid at the same rate charged under Va Code § 58.1-3916.

Sec. 4-11. APPEALS ON ASSESSMENTS; RULINGS.

- a. Any person assessed with a license tax or fee as a result of an audit may apply within ninety days from the date of such assessment to the Town Treasurer for a correction of the assessment. The application must be filed in good faith and sufficiently identify the taxpayer, audit period, remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The Town Treasurer may hold a conference with the taxpayer if requested by the taxpayer, or require submission of additional information and documents, a further audit, or other evidence deemed necessary for a proper and equitable determination of the application. The assessment shall be deemed prima facie correct. The Town Treasurer shall undertake a full review of the taxpayer's claims and issue a determination to the taxpayer setting forth its position. Every assessment pursuant to an audit shall be accompanied by a written explanation of the taxpayer's right to seek correction and the specific procedure to be followed in the Town (e.g., the name and address to which an application should be directed).
- b. Provided a timely and complete application is made, collection activity shall be suspended until a final determination is issued by the Town Treasurer, unless the Town Treasurer determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of sec. 4-9. but no further penalty shall be imposed while collection action is suspended. The term "jeopardized by delay" includes a finding that the application is frivolous, or that a taxpayer desires to 1. depart quickly from the locality, 2. remove his property therefrom, 3. conceal himself or his property therein, or 4. do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.
- c. Any person assessed with a local license tax as a result of an audit may apply within ninety days of the determination by the Town Treasurer on an application pursuant to subsection a of this section to the Virginia Tax Commissioner for a correction of such assessment. The Tax Commissioner shall issue a determination to the taxpayer within ninety days of receipt of the taxpayer's application, unless the taxpayer and the Town Treasurer are notified that a longer period will be required. The application shall be treated as an application pursuant to Va. Code § 58.1-1821, and the Tax Commissioner may issue an order correcting such assessment pursuant to Va. Code § 58.1-1822. Following such an order, either the taxpayer or the Town Treasurer may apply to the appropriate circuit court pursuant to Va. Code § 58.1-3984. However, the burden shall be on the party making the application to show that the ruling of the Tax Commissioner is erroneous. Neither the Tax Commissioner nor the Virginia Department of Taxation shall be made a party to an application to correct an assessment merely because the Tax Commissioner has ruled on it.
- d. On receipt of a notice of intent to file an appeal to the Tax Commissioner under subsection c of this section, the Town Treasurer shall further suspend collection activity until a final determination is issued by the Tax Commissioner, unless the Town Treasurer determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of sec. 4-9., but no further penalty shall be imposed while collection action is suspended. The term "jeopardized by delay" shall have the same meaning as set forth in subsection b of this section.
- e. Any taxpayer may request a written ruling regarding the application of a license tax to a specific situation from the Town Treasurer. Any person requesting such a ruling must provide all the relevant facts for the situation and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if 1. there is a change in the law, a court decision, or the guidelines issued by the Virginia Department of Taxation upon which the ruling was based or 2. the Town Treasurer notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

Sec.4-12. RECORDS AND REPORTS REQUIRED.

Every person who is assessable with a local license tax shall keep sufficient records to enable the Town Treasurer to verify the correctness of the tax paid for the license years assessable and to enable the Town Treasurer to ascertain what is the correct amount of tax that was assessable for each of those years. All such records, books of accounts and other information shall be open to inspection and examination

by the Town Treasurer in order to allow the Town Treasurer to establish whether a particular receipt is directly attributable to the taxable privilege exercised within the Town. The Town Treasurer shall provide the taxpayer with the option to conduct the audit in the taxpayer's local business office, if the records are maintained there. In the event the records are maintained outside the Town, copies of the appropriate books and records shall be sent to the Town Treasurer's office upon demand.

Sec.4-13. TRANSFER OF LICENSE.

Licenses may be transferred from one person to another; provided, that no such transfer shall be valid unless and until notice in writing be given to the Town Treasurer. Failure to notify the Town Treasurer of the transfer of the license within seventy-five days of such transfer shall invalidate such license.

Sec. 8-2. LEVY AND RATE.

The tax shall be paid and collected in the manner and at the time hereinafter prescribed; provided that the tax payable for each cigarette or cigarette package sold or used within the Town shall be paid but once. The tax hereby levied shall not apply to free distribution of sample cigarettes in packages containing five or fewer cigarettes.

Sec. 8-3. METHODS OF COLLECTION.

The tax imposed by this Chapter shall be evidenced by the use of a tax stamp and shall be paid by each dealer or other person liable for the tax under a reporting method deemed by the Board to carry out the provisions of this Chapter. The stamps shall be affixed in such a manner that their removal will require continued application of water or steam. Each dealer or other person liable for the tax is hereby required, and it shall be his duty, to collect and pay the tax and report all packages of cigarettes on forms prescribed for this purpose by the Board, (1) the quantity of NVCTB stamped cigarettes sold or delivered to (a) each registered agent appointed by the Board for which no tax was collected, (b) each manufacturer's representative and (c) each separate person and place of business within the Town during the preceding calendar month, and, (2) the quantity of NVCTB stamps on hand, both affixed and unaffixed on the first day and the last day of the preceding calendar month and the quantity of NVCTB stamps or NVCTB stamped cigarettes received during the preceding calendar month, and (3) the quantity of cigarettes on hand to which the NVCTB stamp had not been affixed on the first and last day of the preceding calendar month and the quantity of cigarettes received during the preceding calendar month to which the NVCTB stamp had not been affixed, and (4) such further information as the Administrator for the Board may require for the proper administration and enforcement of this Chapter for the determination of the exact number of cigarettes in the possession of each dealer or user.

Each dealer or other person liable for the tax shall file such reports with the Board and pay the tax due to the Board between the first (1st) and twentieth (20th) day of each calendar month, and shall furnish a copies of all cigarette tax reports submitted to the Virginia Department of Taxation.

When, upon examination and audit of any invoices, records, books, cancelled checks, or other memoranda touching on the purchase, sale, receipt, storage or possession of tobacco products taxed herein, any dealer or other person liable for the tax is unable to furnish evidence to the Board of sufficient tax payments and stamp purchases to cover cigarettes which were sold, used, stored, received, purchased or possessed by him, the prima facie presumption shall arise that such cigarettes were received, sold, used, stored, purchased or possessed by him without the proper tax having been paid. The Board shall, from the results of such examination and audit based upon such direct or indirect information available, assess the tax due and unpaid and impose a penalty of ten (10) per cent and may impose interest of three-quarters (3/4) per cent per month of the gross tax due.

When any dealer or other person liable for the tax files a false or fraudulent report or fails to file a report or fails to perform any act or performs any act to evade payment of a tax, the Board shall revoke such dealer's permit to affix revenue stamps. Additionally, a dealer

may be subject to a civil penalty of \$500.00 for each day after the due date that a dealer fails or refuses to file a report required under this ordinance.

The dealer or other person liable for the tax shall be notified by certified mail of such deficiency and such tax, penalty, and interest assessed shall be due and payable within ten (10) days after notice of such deficiency has been issued. Every dealer or other person liable for the tax shall examine each package of cigarettes to ensure that the NVCTB stamp has been affixed thereto prior to offering them for sale.

Any dealer or other person liable for the tax who shall receive cigarettes not bearing the NVCTB stamp shall, within one hour of receipt of such cigarettes, commence and with all reasonable diligence continue to affix the NVCTB stamp to each and every package of cigarettes until all unstamped packages of cigarettes have been stamped and before offering such cigarettes for sale. Any dealer or other person liable for the tax who has notified the Board that he is engaged in interstate or intrastate business shall be permitted to set aside such part of his stock as may be legally kept for the conduct of such interstate or intrastate business (that is, cigarettes held for sale outside the jurisdiction of the Board) without affixing the stamps required by this Chapter. Any such interstate or intrastate stock shall be kept entirely separate and apart from the NVCTB stamped stock, in such a manner as to prevent the co-mingling of the interstate or intrastate stock with the NVCTB stock. Any dealer or other person liable for the tax found to have had untaxed cigarettes which have been lost, whether by negligence, theft, or any other unaccountable loss, shall be liable for and shall pay the tax due thereon.

It shall also be the duty of each dealer or other person liable for the tax to maintain and keep for a period of three (3) years, not including the current calendar year, records of all cigarettes received, sold, stored, possessed, transferred or handled by him in any manner whatsoever, whether the same were stamped or unstamped, and to make all such records available for audit, inspection and examination and to make available at all reasonable times, as well as provide the means, facilities and opportunity for making such audit, inspection or examination upon demand of the Board.

Sec. 8-4. REGISTERED AGENTS.

Any dealer or other person liable for the tax who shall sell, use, store, possess, distribute or transport cigarettes within, or into the Town, shall first make application to the Board to qualify as a Registered Agent. Such application blank, which shall be supplied upon request, shall require such information relative to the nature of the business engaged in by said applicant as the Board deems necessary for the administration and enforcement of this Chapter. There is a yearly Registration Fee for all Wholesale Dealers and for all Cigarette Machine Operators. Such applicant shall provide a surety bond to the Board of one hundred and fifty (150) per cent of his average monthly tax liability with a surety company authorized to do business in the Commonwealth of Virginia. Such bond shall be so written that, on timely payment of the premium thereon, it shall continue in force from year to year. Any applicant whose place of business is outside the Town shall automatically, by filing his application, submit himself to the Board's legal jurisdiction and appoint the Administrator for the Board as his agent for any service of lawful process.

Upon receipt of the properly completed application forms, and the required surety bond executed, the Board shall determine whether the said applicant qualifies to be a registered agent. The Board will issue to said qualified applicant a yearly Registered Agent Permit to qualify him to purchase, sell, use, store, possess, distribute or transport within or into the Town, NVCTB stamped cigarettes. Registered Agents shall agree to the reporting and payment requirements placed upon him by this Chapter and the rules and regulations as from time to time may be promulgated by the Board. When any registered agent's monthly report and payment of the tax is not received within the dates prescribed, the Board shall impose a late reporting penalty of ten (10) per cent of the gross tax due or ten (10) dollars whichever is greater, but in no event more than one thousand (1000) dollars. The Board may also require such registered agent to provide proof that he has complied with all applicable laws of the Commonwealth or Virginia to legally conduct such business and to file financial statements showing all assets and liabilities. The Board may revoke any registered agent's permit due to failure to file tax reports in a timely manner, non-payment of taxes dues or if the cigarette tax surety bond should become impaired for any reason.

All money collected as cigarette taxes under this ordinance shall be deemed to be held in trust by the dealer collecting the same until remitted to the Board.

Registered agents must account for all NVCTB authorized tax stamps purchased. Periodic audits may be conducted to determine any unaccounted variance between the number of stamps purchased and the number of stamps reported and an assessment will be made for all unaccounted for stamps. Any assessment of registered agents located outside the jurisdictions of the Board will be based upon the average sales of packages of cigarettes by jurisdiction during the audit period. For registered agents located within the jurisdictions of the Board, any assessment will be based upon the tax rate of the jurisdiction in which they are located. In addition, there will be a penalty for non-reporting of ten per cent of the gross tax due.

Sec. 8-5. REQUIREMENTS FOR RETAIL DEALERS.

Retail dealers who shall sell, offer for sale, store, possess, distribute, purchase, receive or transport cigarettes for the purpose of sale within the Town, shall purchase cigarettes only from registered agents giving or supplying the business trade name and business address of the location where the cigarettes will be placed for sale to the public. Cigarettes purchased for personal use cannot be brought into a business for resale. Only properly registered and licensed retail stores may sell cigarettes to the public. To be properly registered and licensed, a retail store must first have a valid Virginia State Sales and Use Tax Certificate and valid retail business license. Cigarettes must be purchased and stored separately for each business location. All copies of cigarette purchase invoices/receipts must be retained by the retailer for a period of three years and shall be made available to agent of the NVCTB upon request for use in conducting audits and investigations. All copies of cigarette purchase invoices/receipts must be stored at the business retail location for a period of one year from date of purchase. Failure to provide cigarette invoices/receipts may result in confiscation of cigarettes until receipts can be reviewed by the Board to verify the proper tax has been paid. It is the responsibility of each retail location to insure that all cigarettes placed for sale or stored at that location be properly taxed and stamped. Cigarettes found without the NVCTB stamp or the proper jurisdictional tax paid will be seized by the agents of the Board.

Retail dealers must make their place of business available for inspection by tobacco revenue agents to insure that all cigarettes are properly stamped and all cigarettes taxes are properly paid.

Sec. 8-6. PRESUMPTION OF ILLEGALITY; SEIZURE OF CONTRABAND GOODS, SEALING/SEIZURE OF MACHINES

If any cigarette machine operator or other person liable for the tax imposed by this article is found to possess any cigarettes without the jurisdictional tax paid or the proper tax stamp affixed, there shall be a rebuttable presumption that any such operate or other person shall be in possession of untaxed cigarettes in violation of this section.

If any cigarettes placed in any vending machines within the town, then there shall be a rebuttable presumption that such cigarettes were placed in that machine for sale within the town. If any vending machine located within the town contains cigarettes upon which the NVCTB tax stamp has not been affixed or on which the jurisdictional tax has not been paid or containing cigarettes placed so as to not allow visual inspection of the NVCTB tax stamp through the viewing area as provided for by the vending machine manufacturer, then there shall be a rebuttable presumption that the machine contains untaxed cigarettes in violation of this article.

Any cigarettes, vending machines, cigarette tax stamps, or other property found in violation of this Chapter shall be declared contraband goods and may be seized by the Board. In addition to any tax due, the dealer or other person liable for the tax possessing such untaxed cigarettes or tax stamps shall be subject to civil and criminal penalties herein provided.

In lieu of seizure, the Board may seal such vending machines to prevent continued illegal sale or removal of such cigarettes. 2. Gross Floor Area - the sum of the total horizontal areas of the several floors of all buildings on a lot, measured the interior faces of exterior walls. The term "gross floor area" shall include basements; elevator shafts and at each story; floor space used for mechanical equipment with structural headroom of six feet six inches or penthouses, attic spaces, whether or not a floor has actually been laid, providing structural headroom of inches or more; interior balconies; and mezzanines.

The gross floor area of structures devoted to bulk storage of materials shall be computed by counting each ten feet of height or fraction thereof as being equal to one floor.

The term "gross floor area" shall not include balconies which do not exceed a projection of six feet beyond the exterior walls of the building.

3. Net Floor Area - the sum of the total horizontal areas of the several floors of all buildings on a lot, measured from the interior faces of exterior walls and from the centerline of walls separating two or more buildings. In the instance where one or more separate uses are contained within one building, the determination of the net floor area for one use shall be based upon the total horizontal area designated for that use, measured from the interior faces of exterior walls and from the interior faces of walls separating individual uses.

The term "net floor area" shall exclude areas designed for permanent uses such as toilets, utility closets, mechanical and equipment rooms, public and fire corridors, stairwells and elevators. Generally, the amount of total net floor area of a building can be considered to be eighty (80) percent of the total gross floor area of the same building.

b. Non-Conforming Uses.

1. Any non-conforming use or structure which lawfully existed at the time of passage of section 9-13 may be continued only so long as the then existing or a more restricted use continues and such use is not discontinued for more than two years.
2. Any non-conforming use or structure which is rendered non-conforming because of the operation of section 9-13 shall not be enlarged, extended or expanded. Structural alternations may be made to a structure which is non-conforming so long as such alternations do not enlarge, extend or expand such non-conformance. In all cases, state fire regulations must be complied with. Nothing herein shall prevent the strengthening or restoring to a safe and lawful condition of any part of any building declared unsafe by the Fire Marshall or other authorized person.
3. A non-conforming use changed or altered to a more restricted use or a conforming use may not thereafter be changed back to the original non-conforming use.

c. Minimum required vehicular off-street parking spaces for uses within the Town.

1. Residential: at least two (2) off-street parking spaces shall be required for each new residential dwelling unit used solely as a residence.
2. Restaurant: one (1) off-street parking space for every six customer seats plus one (1) space for every two employees on the premises during peak hours of operation shall be required.
3. Office, retail, and other commercial uses: one (1) off-street parking space for every two hundred and seventy five (275) square feet of gross floor area shall be required where space within a commercial building is to be utilized by one user. In the instance where the building is utilized by more than one user in separately operated office, retail or other commercial space, one (1) off-street parking space for every two hundred and twenty (220) square feet of net floor area shall be required.

A. In no event shall calculations based on floor area allow a reduction in required parking below what is needed for the maximum number of employees present at any one time and one (1) space for customer parking except as may be approved by the Town Council in section 9-13.c.3.B. below.

4. The Town Council may modify requirements for off-street parking for office, retail, restaurant and commercial uses when it can be demonstrated that a particular use will not require the number of parking spaces calculated under the provisions of this section. However, in no instance shall the number of parking spaces approved for a given use fall below that needed for one (1) employee. The applicant/user shall demonstrate to the Town Council's satisfaction that a parking reduction is warranted.
5. Industrial uses: one (1) off-street parking space for every employee on a major shift, plus one (1) space for every company vehicle and piece of mobile equipment, plus a sufficient number of spaces for all those persons who may be expected to visit the same at any one time, shall be required.
6. Churches: one (1) space for every six seats in the principal place of worship shall be required.
7. Public and quasi public uses, including but not limited to post offices, fire stations, government facilities and parks: one (1) off-street parking space for every employee on the premises at any one time plus one (1) space for every company vehicle and piece of mobile equipment shall be required. Furthermore, additional spaces deemed by the Town Council to be necessary for public parking may be required and will be based upon the type of use and the anticipated need for such parking.
8. For all other uses, including, but not limited to Home Businesses, a sufficient number of off-street vehicular parking spaces shall be required to accommodate the vehicles of all employees of the establishment, plus those of all persons who may be expected to visit the same at any one time. The spaces shall be specified by the use permit issued by the Town Council.
9. One loading space per building shall be required for all commercial uses for which regular deliveries or pick ups are made, unless deliveries will not occur during operating hours. A loading space shall be at least 8.5'x25'. The Town Council is authorized to waive the loading requirement when a determination is made that the proposed use can be adequately served by an existing or on or off-site loading area or where the provision of a loading area is not feasible because of the location of existing buildings or structures. Required off-street loading spaces may be provided jointly for two or more uses subject to the approval by the Town Council. The overall number of loading spaces may be reduced by the Town Council where adjacent uses can demonstrate that they can be adequately served by a shared loading facility.
10. Where fractional spaces result from the minimum calculations required herein, the parking spaces required shall be the next whole number.
11. All required vehicular off street parking spaces for non-residential structures or uses permitted in the Commercial or Industrial District shall be located on the same lot as the structure or use to which they are accessory. The Town Council, acting upon a specific use permit application, may authorize an alternative parking arrangement in the Commercial District subject to the following conditions:
 - A. Required off street vehicular parking spaces may be provided cooperatively for two or more commercial structures or uses within five hundred (500) feet of one another, subject to arrangements or agreements that will assure the permanent availability of such spaces to the satisfaction of the Town Council. The amount of such combined space shall equal the sum of the amounts required for the separate uses; provided, however, that the Town Council may reduce the total number of parking spaces required when it can be determined that the same spaces may adequately serve two or more commercial structures or uses by reason of the hours of operation of such structures or uses.
 - B. Required off-street parking for a structure or use in a Commercial District may be located on another commercially zoned parcel under different ownership only if the existing or proposed parking facilities are within five hundred (500) feet. However, a Certificate of Appropriateness will not be required if the structure being erected, constructed, reconstructed, restored, demolished, razed or altered does not exceed 100 square feet in size. No sign, fence and/or retaining wall shall be erected or modified in the District until a Certificate of Appropriateness has been approved by the ARB.
- d. Architectural Review Board.
 1. The Architectural Review Board (ARB) shall be established for the purpose of administering the provisions of the Historic Overlay District. The ARB shall be composed of five (5) or seven (7) voting members appointed by the Town Council, who shall be residents of the Town of Clifton, with a demonstrated knowledge of and interest in the preservation of historical and architectural landmarks. It is recommended that the composition of the ARB be as follows:

 6. The ARB shall keep records of their proceedings and such records shall be made available to the public upon request to the Chairman.
- e. Powers and duties of the ARB. The powers and duties of the ARB shall be as follows:
 1. To hear and decide on the issuance of Certificates of Appropriateness for the erection (including siting), reconstruction, restoration, or exterior alteration of any building in the District.

- f. Application. Application for a Certificate of Appropriateness shall be filed with the Chairman of the ARB on a form designed by the Chairman. Unless waived by the ARB, the Application shall contain at least: (1) a plat plan; (2) a statement of the proposed use; (3) the name of the proposed user; (4) the name of the owner of the property; (5) a statement of the estimated time of construction; (6) design sketches showing all exterior views of the building and any site development with all materials indicated; (7) a plan showing exterior signs, graphics and lighting to establish location, size, and type of materials; and (8) new construction other than additions shall provide a plan of development. The Chairman shall have the power to request reasonable additional information. The applicant shall be required to post a notice of the application on the premises in a place clearly visible from the street and at the Clifton Post Office at least five days prior to the ARB hearing. The form of the notice shall be set forth by the Chairman of the ARB. A fee of \$10.00 shall be paid with each application filed before work on the structure has started, except for any new home or commercial construction shall be \$250.00 and any actual costs of review fees incurred, including consultant's fees and other costs set forth in Virginia State Code Section 15.2-2286.A.6. A fee of \$25.00, except for any new home or commercial construction, shall be paid with each application filed after work on the structure has started. At least eight (8) copies of the application shall be filed.
- g. The ARB shall review each application for a Certificate of Appropriateness promptly upon its receipt of the same. In reviewing applications for the erection, construction, reconstruction, remodeling, exterior alteration or restoration of a building or structure, the ARB shall not consider interior arrangement, and shall not make any requirements except for the purpose of preventing developments architecturally incompatible with the historic aspects of the Historic Overlay District. The ARB shall consider the following in determining the appropriateness of architectural features:
1. the exterior architectural features, including all signs;
 2. the general design, arrangement, texture, material, and fenestration of the proposed building or structure and the relation of such factors to similar features of buildings or structures in the immediate vicinity of the historic and building within the Historic Overlay District;
 3. the extent to which the building or structure would be harmonious with or architecturally incompatible with the historic district or historic landmarks;
 4. the extent to which the building or structure will preserve or protect historic places and areas of historic significance in the Town;
 5. the extent to which the building or structure will promote the general welfare of the Town and all citizens by the preservation and protection of historic places and areas of historic interest in the Town;
 6. the standards and recommendations for development as set forth in the "Architectural & Planning Guidelines, Clifton, Virginia" for the Clifton Historic Overlay District.
- h. In reviewing the application for a Certificate to raze or demolish any building or structure in the historic district, the ARB shall review the circumstances and the condition of the structure or part proposed for demolition and shall report its finding based on consideration of any or all of the following criteria:

1. Is the building of such architectural or historical interest that its removal would be to the detriment of the overall historic nature of the district?
 2. Is the building of such old and unusual or uncommon design, texture and material that it could not be reproduced or be reproduced only with great difficulty?
 3. Would retention of the building help preserve and protect the historic character of the district?
- h. In reviewing an application for a Certificate to move or relocate any building or structure in the Historic District, the ARB shall consider the following criteria:
1. Would the proposed relocation have a detrimental effect on the structural soundness of the building or structure?
 2. Would the proposed relocation have a detrimental effect on the historical aspects of other buildings in the Historic Overlay District?
 3. Would relocation provide new surroundings that would be harmonious with or incongruous to the historical and architectural aspects of the structure or building?
 4. Would relocation of the building help preserve and protect a historic place or area of historic interest in the Town?
- j. The ARB, on the basis of the information received from the applicant and from its general background and knowledge, and upon application of the appropriate criteria set forth in Paragraphs g, h, and i above, shall approve, approve with modifications, or disapprove the application. If the ARB disapproves the application, it shall, within three days, so notify the applicant in writing of the reasons for the disapproval.
- k. Any person aggrieved by any decision of the ARB may appeal such decision to the Town Council, provided such appeal is filed with the Clerk to the Town Council within ten (10) days of the ARB's decision. The Town Council shall hear the appeal within forty-five (45) days of the filing of the appeal. The ARB may present its reasons for its decisions at the appeal. The Town Council may affirm, reverse, or modify the decision of the ARB.
- l. Any person or persons jointly or severally aggrieved by any decision of the Town Council or any officer, board or agency of the Town may appeal such decision to the Circuit Court of Fairfax County for review by filing a petition at law setting forth the alleged illegality of the action of the Town Council, provided such petition is filed within forty-five (45) days after the final decision is rendered by the Town Council. The filing of said petition shall stay the decision of the Town Council pending the outcome of the appeal to the Court, except that the filing of such petition shall not stay the decision of the Town Council if such decision denies the right to raze or demolish any building or structure in the Historic District.
- m. In addition to the right of appeal set forth in Paragraphs k and l above, the owner of a building or structure in the Historic District shall, as a matter of right, be entitled to raze or demolish such building or structure, provided that:
1. he has applied to the ARB for such right;
 2. the owner has for the period of time set forth in the time schedule below and at a price reasonably related to its fair market value, made a bona fide offer to sell such landmark, building or structure, and the land pertaining thereto, to the Town, to any person, firm, corporation, or to any department, officer, agency, board of government of the Federal, State, or local governmental body, which gives reasonable assurance that it is willing to preserve and restore such landmark, building, or structure and the land pertaining thereto or described; and,
 3. that no bona fide contract, binding upon all parties thereto shall have been executed for the sale of any such landmark, building or structure, and the land pertaining thereto, prior to the expiration of the applicable time period set forth in the time schedule below. Any appeal which may be taken to the Court from the decision of the Town Council, whether instituted by the owner or by any other proper party, notwithstanding the provisions heretofore stated relating to a stay of the decision appealed from, shall not affect the right of the owner to make

the bona fide offer to sell referred to above. No offer to sell shall be made more than one (1) year after a final decision by the Town Council, but thereafter, the owner may renew his request to the Town Council to approve the razing or demolition of the historic landmark, building, or structure. The time schedule for offers to sell shall be as follows:

- A. Three (3) months when the offering price is less than twenty-five thousand dollars (\$25,000.00);
- B. Four (4) months when the offering price is twenty-five thousand dollars (\$25,000.00) or more, but less than forty thousand dollars (\$40,000.00);
- C. Five (5) months when the offering price is forty thousand dollars (\$40,000.00) or more, but less than fifty-five thousand dollars (\$55,000.00);
- D. Six (6) months when the offering price is fifty-five thousand dollars (\$55,000.00) or more, but less than seventy-five thousand dollars (\$75,000.00);
- E. Seven (7) months when the offering price is seventy-five thousand dollars (\$75,000.00) or more, but less than ninety thousand dollars (\$90,000.00);
- F. Twelve (12) months when the offering price is ninety thousand dollars (\$90,000.00) or more.

ARTICLE 1

TITLE, POLICY AND PURPOSES

Sec.10-1. TITLE

Chapter 10 of the Code of the Town of Clifton, Virginia shall be designated the Subdivision Ordinance of the Town of Clifton, Virginia, and may be so cited.

Sec.10-2. POLICY AND PURPOSES

It is hereby declared to be the policy of the Town of Clifton to consider the subdivision of land as subject to the power of the Town of Clifton to implement the Comprehensive Plan. This Ordinance is adopted for the following purposes:

- a. To establish subdivision standards, procedures and reviews for the Town of Clifton, Virginia.
- b. To guide and facilitate the orderly, beneficial growth of the community by assuring the orderly subdivision of land and its development.
- c. To promote the public health, safety, convenience, comfort, prosperity and general welfare within the Town.
- d. To preserve the historic features of the Town of Clifton.
- e. To encourage to the extent possible the preservation of such environmental features as existing tree cover, steep slopes, streams and floodplains.

ARTICLE 2 ADMINISTRATION

Sec.10-3. ADMINISTRATOR

The Planning Commission is hereby delegated the authority and the power by the Town Council of Clifton to administer this Ordinance.

Sec.10-4. DUTIES

The Planning Commission shall perform its duties as regards subdivisions and subdividing in accordance with this Ordinance and Article 7 of the Virginia Planning Act.

Sec.10-5. ADDITIONAL AUTHORITY

In addition to the regulations herein contained for the platting of subdivisions, the Planning Commission may, from time to time, establish any reasonable additional administrative procedures deemed necessary for the proper administration of this Ordinance.

ARTICLE 3 DEFINITIONS

Sec.10-6. ADEQUATE DRAINAGE

Adequate drainage of surface water means the effective conveyance of storm and other surface waters through and from the development site and the discharge of such waters either into a natural watercourse, i.e., a stream with incised channel (bed and

banks), or into a drainage facility of sufficient capacity without adverse impact either upon the land over which the waters are conveyed or upon the watercourse or facility into which such waters are discharged.

Sec.10-7.BEST MANAGEMENT PRACTICES (BMP'S)

A technique, or combination of techniques, that is determined by a state or designated area wide planning agency to be the most effective practicable means of preventing or reducing the amount of pollution generated by non-point sources to a level compatible with those water quality goals adopted by Fairfax County for the Occoquan Reservoir. Such techniques may include, but not be limited to, volume control measures incorporated into the stormwater management system (i.e. standard detention pond facilities modified in design to reduce the release rate of detained stormwater, percolation trenches, natural open space), porous pavement, creation of marsh/wetland areas, provision of vegetative strips for sheet flow and programs for parking lot vacuuming and street sweeping.

Sec.10-8.COMMISSION

The Town of Clifton Planning Commission

Sec.10-9.CONSTRUCTION PLANS

Any drawing required by the Town of Clifton Planning Commission which may be used in the processing of record plats or for the construction of any phase of on-site or off-site improvements. These include but are not limited to site plans, grading plans, plans and profiles and cross sections.

Sec.10-10.DRIVEWAY

That space or area of a lot measuring a minimum of ten (10) feet in width that is specifically designated and reserved for the movement of motor vehicles within a lot, between two lots in the case of a shared driveway, or from a lot to a public street.

Sec.10-11.FRONTAGE

A lot shall be deemed to have frontage if it is contiguous to a public street and has a width of sixty (60) feet at the public street right-of-way.

Sec.10-12.LOT

For the purposes of this Ordinance the term lot shall mean a parcel of land, tract or plot of land however designated, which is to be used, developed, sold, conveyed or built upon as a single unit.

Sec.10-13.LOT CONSOLIDATION

The joining of two or more separate lots of record into a smaller number of lots.

Sec.10-14.STREET

A strip of land intended primarily for vehicular traffic and providing the principal means of access to three or more lots, parcels, tracts or plots of land, and which may include sidewalks, trails, sewers, and other storm drainage facilities and public utilities.

Sec.10-14.STREET, ARTERIAL

Streets that provide service to trips of moderate length at higher levels of travel mobility than a collector street. Arterial streets do not penetrate identifiable neighborhoods. A minor arterial street serves intra-urban trips between smaller geographic areas. Such a facility is designed with greater emphasis on traffic movement or services than it is on providing access to abutting land. A principal arterial street carries the major portion of trips entering and leaving an urban area as well as the majority of through movements desiring to

by-pass a central town or city. The concept of service to abutting land is subordinate to the provision of travel service to major traffic movements.

Sec.10-15.STREET, COLLECTOR

A street which provides for principal internal movements at moderate operating speeds within residential developments, neighborhoods and commercial or industrial districts. It also provides the primary means of circulation between adjacent neighborhoods and can serve as a local bus route. A collector street functions to distribute trips from arterials to local and other collector streets. Conversely, it collects traffic from local streets and channels it into the more intensively used arterial system. The collector street provides for the dual purpose of land access and local traffic movement. In line with its dual function, there must be continuity in the pattern of these streets.

Sec.10-16.STREET, LOCAL

A street which primarily provides direct access to residential, commercial, industrial, or other abutting property. The local street system includes all facilities not classified as a principal arterial, minor arterial or collector street. Overall operating speeds are low in order to permit frequent stops or turning movements to be made with maximum safety. Service to through traffic movement is deliberately discouraged.

Sec.10-17.STREET, PRIVATE

A street providing sole access to three or more lots, and which is not or cannot be accepted into the State of Virginia Highway System.

Sec.10-18.STREET, PUBLIC

A platted street, dedicated for the use of the general public and paved in order that every person has the right to pass and to use it at all times for all purposes of travel, transportation and parking to which it is adapted and devoted.

Sec.10-19.SUBDIVIDE

To divide or redivide any tract, parcel or lot of land into two or more parts including condominium development or condominium conversion where there is any division or redivision of real property.

Sec.10-20.SUBDIVIDER

A person or his agent who has applied for approval of or has duly recorded a plat for the subdivision of a tract of land.

Sec.10-21.VDOT

An abbreviation for the Virginia Department of Transportation.

ARTICLE 4

APPROVAL OF PLATS AND PLANS

Sec.10-22.PLATTING REQUIRED

Any owner or developer of any tract of land situated within the town limits who subdivides the same shall cause a plat of such subdivision, with reference to known or permanent monuments, to be made and recorded in the office of the clerk of Fairfax County. No such plat of subdivision shall be recorded unless and until it shall have been submitted, approved and certified by the Planning Commission in accordance with the regulations set forth in this Ordinance. No lot shall be sold in any such subdivision before the plat shall have been recorded. Nor shall any building be erected or sold upon such lot before the plat shall have been recorded.

Sec.10-23.PLAT PREPARATION

Every such plat shall be prepared by a surveyor or engineer duly licensed by the State of Virginia, who shall endorse upon each plat a certificate signed by him setting forth the source of the title of the land subdivided, and the place, of record of the last instrument in the chain of title. When the plat is of land acquired from more than one source of title, the outlines of the several tracts shall be indicated upon such plat, within an inset block, or by means of a dotted boundary line upon the plat.

Sec.10-24.NO ONE EXEMPT

No person, owner or corporation shall subdivide any tract of land that is located within the Town, except in conformity with the provisions of this Ordinance.

ARTICLE 5

FILING OF PLATS AND PLANS - GENERAL

Sec.10-25. FILING OF PLATS

Whenever any subdivision of land is proposed, and before any permit for clearing, grading or any other construction shall be granted, the subdivider or his agent shall apply in writing to the Planning Commission for the approval of a preliminary subdivision plat and submit the number of copies of the plat as required by the Commission's administrative procedures ten days before the next scheduled meeting of the Planning Commission and submit one copy to the Town Clerk. Upon receipt of a plat and payment of fees, the Planning Commission shall, at its next regularly scheduled meeting, with the subdivider present, make a determination whether the plat is officially accepted for review.

- a. If the proposed subdivision is a resubdivision, if it adjusts an existing boundary line, or if a consolidation of lots is proposed, the applicant/subdivider or his agent shall apply in writing as outlined in section 10-25 above, and submit the number of copies of the plat as required by the Commission's administrative procedures in the time period outlined in section 10-25 above. See also ARTICLE 16.

Sec.10-26.FEES

There shall be a charge for the examination and approval or disapproval of every plat and plan reviewed by the Planning Commission. The town fee schedule shall be set at a \$250.00 per lot one-time administrative fee. At the time of submission of the preliminary plat, and at the time of submission of the construction/final plans, a review fee shall be collected to cover costs of plan review. At each submission the fee shall be \$2000.00 per lot, with a minimum fee of \$7000.00. The Town shall maintain an account for each subdivision application and provide a monthly accounting of all review fees paid out. If the account balance falls below \$2000.00, the applicant will be notified. The applicant must provide the Town sufficient funds to restore the account balance to \$2000.00 within ten (10) days following notification. If the applicant does not restore the account balance within ten days, all reviews will cease and the Planning Commission may deny the application on this basis. At the time for final plat approval, an accounting will be made and any Town review costs exceeding fees paid will be paid prior to approval. Subsequent to approval, any excess fees paid will be refunded. Subdivision construction plan review and site inspection fee accounting will be made prior to bond release. In the event the Planning Commission deems it necessary to retain consultants, engineers, attorneys, or inspection agencies in connection with its review of any of the above submissions, the subdivider shall be responsible for those costs incurred by the Planning Commission.

Sec.10-27.NOTICE

- a. After the Planning Commission officially accepts the plat for review, a hearing date shall be set to consider testimony regarding the plat.
- b. The subdivider shall be advised of the date of the hearing.
- c. The provision of notice shall be the responsibility of the subdivider. The subdivider shall be required to notify all owners of property contiguous to and across the street or road from the parcel to be subdivided. Such notice shall provide information on the proposed subdivision and shall provide the date of the scheduled hearing. This notification must be to a minimum of

ten (10) property owners within the Town other than the owner of the parcel to be subdivided and must be to those who own property closest to the parcel to be subdivided.

- d. The Tax Map reference number shall be included in the notice sent to property owners.
- e. Notice shall be sent at least ten days prior to the hearing by registered or certified mail to the last known address of such owners as shown on the current real estate tax assessment book and shall be deemed adequate compliance with the requirement. Written proof of notification of all such owners shall be provided to the Planning Commission.
- f. The notice shall read as follows: "This is to notify you that a proposed subdivision plat, entitled, has been submitted to the Town of Clifton Planning Commission. The proposed subdivision plat may be reviewed by contacting the Secretary of the Planning Commission. A hearing will be held on [date set for public hearing] for purposes of obtaining public comment and input."

Sec.10-28.PROCEDURE

- a. After review of any plat by the Planning Commission, its consultants, any appropriate Town agency (including the Architectural Review Board), County of Fairfax, or State agency in order to determine whether or not the plat generally conforms to the requirements of the Subdivision Ordinance and the standards, regulations and requirements of the appropriate County and State agencies, the Commission shall, within sixty (60) days advise the subdivider, his agent, engineer or surveyor concerning any additional data which may be required and of the decision of the Planning Commission. In the event of State agencies making a review of such plat, the Commission shall act upon such plat within thirty-five (35) days after receiving approval from all State agencies.
- b. Where physical improvements are required by the approved preliminary plat, construction plans shall be submitted by the subdivider in accordance with Article 7 and all other pertinent sections of this Ordinance, and shall be in complete conformance with the approved preliminary plat.
- c. A final plat shall be filed by the subdivider after approval of the preliminary plat and with a construction plan if such has been required. The final plat shall be submitted in accordance with Article 8 and all other pertinent sections of this Ordinance, and shall be in complete conformance with the approved preliminary plat.
- d. Failure of the subdivider to provide information deemed necessary by the Commission for full review of the plat or plan, or failure to resubmit a revised, corrected plat or plan within six (6) months of Planning Commission action of the plat will necessitate consideration of any plat submitted thereafter as new. Consideration of the plat by the Commission shall commence only after a determination is made that the plat is officially accepted for review and payment of a new review fee has been made if required by the Planning Commission.

Sec.10-29.NECESSARY CHANGES

No change, erasure or revision shall be made on any preliminary plat or final plat, nor on accompanying data sheet after approval of the Planning Commission, unless authorization for such changes has been requested in writing from and granted by the Planning Commission.

Sec.10-30.APPEALS OF THE COMMISSION'S DECISION

Appeals of the Commission's decision shall be made to the Circuit Court in accordance with section 15.2-2259 of the Code of Va. Appeals shall cite the section of the Ordinance in which the appellant alleges the Planning Commission to be in error. - a. Name of subdivision, owner, subdivider, surveyor or engineer, date of drawing, number of sheets, north point and scale.
- b. Location of proposed subdivision by a vicinity map at a scale of not less than two (2) inches equal one mile showing adjoining roads and nearest intersecting streets, their names and numbers, the Fairfax County/Town of Clifton boundary lines, subdivisions and other landmarks.
- c. The boundary survey or existing survey of record, total acreage of subdivided area, number and approximate area and frontage of all building sites, existing buildings within the boundaries of the tract, names of owners and their property lines within the boundaries of the tract and adjoining such boundaries.

- f. A cross section showing the proposed street construction, depth, and type of base, type of surface and other pertinent data.
- g. A contour map with two foot intervals and a profile for all proposed streets showing tentative grades, along the center line of streets.
- h. Proposed connections with existing sanitary sewers and existing water supply or alternate means of sewage disposal and water supply.
- i. All parcels of land to be dedicated for public use, their area and their proposed use, and the condition of such dedication.

Sec.10-32.PRELIMINARY PLAT

The following construction may be required to be included on the preliminary plat prior to preliminary plat approval.

- a. Storm water management.
- b. BMP's.
- c. Trails.
- d. Sidewalks.
- e. Street lights.
- f. Recreation facilities.
- g. Tentative Grading Plan.

Sec.10-33.DESIGN REQUIREMENTS

Subdivisions within the Town shall be designed so as to reflect the existing small town, historical and rural character of the Town and the scale of the municipality as it lies within an otherwise low-density, environmentally sensitive area. New development along new or existing streets shall be compatible and consistent with the appearance of the existing Town, maintaining streetscapes as are presently found in the Town along public roads designed to rural standards, rather than to urban standards, characterized by curb and gutter construction. The Architectural Review Board (ARB), or a consultant designated by the ARB, may serve as the Commission's consultant in reviewing the impact of the proposed subdivision on the historic character of the Town.

- a. The arrangement of streets in new subdivisions shall make provision for the continuation of existing streets in adjoining areas. The street arrangement must be such as to cause no unnecessary hardship to owners to adjoining property when they plat their own land and seek to provide convenient access to it. Where, in the opinion of the Planning Commission, it is desirable to provide for street access to adjoining property, proposed streets shall be extended by dedication and construction to the boundary line of such property. Half streets along the boundary of land proposed for subdivision shall not be permitted.
- b. Whenever possible streets should intersect at right angles. All streets shall approach other streets at an angle of not less than eighty (80°) degrees, unless the Commission, at the recommendation of the State highway engineer, shall approve a lesser angle of approach for reasons of contour, terrain or matching of existing conditions. In all hillside areas, streets running with contours shall be required to intersect at an angle of not less than sixty (60°) degrees, unless otherwise approved by the Commission at the recommendation of the highway engineer.
- c. The maximum right-of-way width of proposed streets, measured from lot line to lot line shall be as follows, modified only by VDOT requirements for acceptance into the State Highway system:
 1. Collector or local streets not more than fifty (50) feet.
- d. Generally local terminal streets (cul-de-sacs) designed to have one end permanently closed, shall be no longer than twelve hundred (1200) feet to the beginning of the turn around. Each cul-de-sac must be terminated by a right-of-way turn around of not less than one hundred ten (110) feet in diameter.
- e. There shall be no private streets platted in any subdivision. Every subdivided property or lot shall be served from a publicly dedicated street. There shall be no reserve strip of land between properties or lots controlling access to streets.
- f. Proposed streets which are obviously in alignment with other already existing and named streets either in the Town of Clifton or the County of Fairfax shall bear the names of the existing streets. In no case shall the names of the proposed streets duplicate existing street names either within the Town of Clifton or Fairfax County irrespective of the use of the suffixes street, avenue, boulevard, drive, way, place, lane or court. Street names shall be indicated on the preliminary and final plats and shall be approved by the Commission. Names of existing streets shall not be changed except by approval of the governing body.
- g. Where public water is available, the service shall be extended by the subdivider to all lots within the proposed subdivision, including fire hydrants, in accordance with the design standards and specifications for water system construction and improvements in Fairfax County. The service shall meet the approval of the Commission.
- h. Every subdivision shall be provided with a means of sewage disposal satisfactory to the Virginia Department of Health.
 1. Where public sewage facilities are available the service shall be extended to all lots within the subdivision and septic tanks will not be permitted.
- i. Nothing in this Ordinance shall prevent the installation of privately owned water wells and/or individual lot sewage disposal facilities in areas where public water and/or sewerage facilities are not available, provided, however, that such installations must meet all the requirements of the State Water Control Board, the State Health Department, and any other State or local regulation having authority over such installation.
- j. The minimum lot width shall be one hundred (100) feet measured at the front setback line, which width shall continue back to the midpoint of the lot depth.
- k. The minimum frontage of a lot shall be sixty (60) feet.
- l. The subdivider shall provide all necessary information needed to determine what improvements are necessary to properly develop the subject property, including the proposed drainage system and flood control devices.

- m. In addition to the area and width requirements of this Ordinance and the Zoning Ordinance, lots shall be arranged in order that the following considerations are satisfied:
1. The lot arrangement, design and shape shall be such that lots will provide satisfactory and desirable sites for buildings, and be properly related to topography and conform to requirements of this Ordinance. Lots shall not contain peculiarly shaped elongations solely to provide necessary square footage of area which would be unusable for normal purposes.
 2. Each lot shall abut on a street dedicated by the subdivision plat or on an existing publicly dedicated street. If the existing streets are not fifty (50) feet in width or such greater or lesser width as may be required by the Commission, the subdivider shall dedicate such additional width as required for a minimum of one half (1/2) of the ultimate width for such street as determined by the Planning Commission.
 3. Corner lots shall have extra width sufficient for maintenance of any required building lines on both streets as determined by the Commission.
 4. Side lines of lots shall be approximately at right angles, or radial to the street line.
 5. All remnants of lots below minimum size left over after subdividing of a tract must be added to adjacent lots, or otherwise disposed of rather than allowed to remain as unusable parcels.
 6. Where the land covered by a subdivision includes two or more parcels in separate ownership, and the proposed lot arrangement is such that a property ownership line divides one or more of the proposed lots, the land in each proposed lots so divided shall be transferred by the subdivision deed of dedication to single ownership, simultaneously with the recording of the final plat. Said deed and the final plat both shall be recorded together.
 7. Lots intended for business or industrial use shall be designed specifically for such purposes with adequate space set aside for off-street parking and delivery facilities.
 8. Lots shall be arranged to provide the minimum amount of clearing necessary for required grading and building sites. Fairfax County Public Facility Manual standards for tree cover, tree preservation, and associated erosion control considerations shall apply unless otherwise modified by the Planning Commission.
- n. Where created by the subdivision of land, all new blocks shall comply with the following general requirements:
1. Generally, the maximum length of blocks shall be twelve hundred feet.
 2. Blocks shall be wide enough to allow two tiers of lots of minimum depth, except where fronting on collector streets, or prevented by topographical conditions or size of the property, in which case the Commission may approve a single tier of lots of minimum depth.
 3. Where a proposed subdivision will adjoin a collector road or thoroughfare, the Commission may require that the greater dimension of the block shall be parallel to such road to avoid unnecessary additional intersections, or may require lots to back up to such road with direct access to it prohibited.
- o. The platted name of the subdivision shall be subject to Planning Commission approval. The subdivision name shall not duplicate or approximate the name of the Town of Clifton nor shall it duplicate or closely approximate the names of existing or platted subdivisions within the Town or the County of Fairfax.
- p. The preliminary plat shall show the location and type of improvements proposed for the purpose of controlling storm water run-off quantity (i.e. stormwater management) and quality (i.e. Best Management Practices) which facilities shall be required according to the standards and criteria adopted in the Fairfax County Public Facilities Manual.

- q. In the interest of public welfare the subdivider shall provide reservations of suitable land for schools, parks, play grounds in accord with the Comprehensive Plan, the Capital Improvements Program and the official map.

Sec.10-34.LIMITS OF APPROVAL

The approval of the preliminary plat by the Planning Commission does not guarantee approval of the final plat and does not constitute approval or acceptance of the subdivision by the governing body or authorization to proceed with construction or improvements within the subdivision.

Sec.10-35.LIFE OF PRELIMINARY PLATS

The subdivider shall have not more than one (1) year after receiving approval of his preliminary plat to obtain approval for a final plat in accordance with this Ordinance. Failure to do so shall make the preliminary approval null and void. The Planning Commission may, on written request of the subdivider and for good cause shown, grant an extension of this limit. A preliminary plat is subject to all Ordinance and Fairfax County Public Facilities Manual changes at all times. Such approval gives no grandfather rights against future Ordinance amendments. Approval shall not be considered to be an acceptance of such plat for recordation.

ARTICLE 7

IMPROVEMENTS/SUBDIVISION CONSTRUCTION PLANS

Sec.10-36.CONSTRUCTION PLAN

A construction plan shall be submitted by the subdivider in accordance with the construction plan requirements established under this Section to insure compliance with the Zoning Ordinance and to provide specific information on improvements to be made by the subdivider as required in this Ordinance and the Fairfax County Public Facilities Manual. The construction plan must be approved by the Planning Commission prior to the approval of the final subdivision plat. The construction plan shall conform to the layout, notes, and all conditions of the approval of the preliminary plat.

Sec.10-37.CONSTRUCTION REQUIRED BY THE SUBDIVIDER

All required improvements shall be installed by the subdivider at his cost. The subdivider's bond shall not be released until construction has been inspected and approved by the appropriate engineers representing VDOT and the Town.

Sec.10-38.SPECIFICATIONS TO BE FOLLOWED

In cases where specifications have been established either by the Virginia Department of Transportation for streets, curbs, etc. or by local ordinances and codes, such specifications shall be followed. In cases where Virginia Department of Transportation specifications are lacking or are less restrictive than the requirements of this Ordinance, this Ordinance shall prevail.

Sec.10-39.DESIGN REQUIREMENTS

Subdivision construction plans prepared by a certified professional engineer or licensed land surveyor shall be submitted to the Commission for review and approval. The number of copies to be submitted shall be designated by the Commission.

- a. All streets in the proposed subdivision shall be designed in accordance with the following minimum requirements and constructed by the subdivider at no cost to the Town.
 - 1. Where drainage and drainage structures require curbs and gutters, the same shall be installed by the subdivider and when curbs and gutters are required on any part of a block they shall be installed on both sides of the street and in that entire block.

2. The grades of streets on subdivision construction plans shall be approved by the Planning Commission after recommendation of the highway engineer. Street grades shall not exceed nine (9%) percent unless specifically approved by VDOT after a recommendation by the Planning Commission.
 3. Street identification signs of a design approved by the Commission shall be installed at all intersections.
- b. Monuments.
1. In all subdivisions, monuments shall be placed in the ground at all lot corners and angle points in the outer lines of the subdivision, and at all points of angles and curvature in the right of way lines of all streets within the subdivision, according to the duly adopted standards and criteria of The Fairfax County Public Facilities Manual.
 2. All monuments must be installed by the subdivider and shall meet the minimum specifications. Upon completion of subdivision streets, sewers and other improvements, the subdivider shall make certain that all monuments required by the Commission are clearly visible for inspection and use. Such monuments shall be inspected and approved before the agreement and bond for the improvements are released.
 3. Concrete monuments four inches in diameter or square, three feet long with a flat top, shall be set at all street corners, at all points where the street line intersects the exterior boundaries of the subdivision, and at all angle points, and points of curve in each street. The top of the monument shall have an appropriate mark to identify properly the location and shall be set flush with the finished grade.
 4. All other lot corners shall be marked with iron pipe not less than three-fourths inch in diameter and twenty-four inches long and driven so as to be flush with the finished grade. When rock is encountered, a hole shall be drilled four inches deep in the rock, into which shall be cemented a steel rod one-half inch in diameter, the top of which shall be flush with the finished grade line.
- c. The installation of adequate fire hydrants in a subdivision at locations approved by the Planning Commission may be required, provided necessary public water is available. The Commission shall consult with the proper authority before approving such location.
- d. The Planning Commission may require that easements for drainage through adjoining property be provided by the subdivider. Easements of not less than ten (10) feet in width shall be provided for water, sewer, power lines and other utilities in the subdivision when required by the Planning Commission.
- e. Where not inconsistent with the provisions of this Ordinance, the construction plans and design for the subdivision are to conform to the requirements and standards of the Fairfax County Public Facilities Manual or as directed by the Planning Commission. When shown on the approved preliminary plat all construction including but not limited to storm water management facilities, Best Management Practices, trails, sidewalks, street lights and streets shall be designed in accordance with the Public Facilities Manual and VDOT's Road and Bridge Standards unless otherwise directed by the Planning Commission.
1. Normally storm water management and Best Management Practices will be required with any new subdivision and are to be provided in accordance with Fairfax County's Public Facilities Manual. Design of facilities requiring little or no maintenance is encouraged. If the Planning Commission determines that a particular site is not adaptable to storm water management or Best Management Practices due to size, shape or topography, the Commission may waive these requirements.
- f. Construction plans shall conform to the provisions of the Town of Clifton Flood Plain Ordinance.
- g. In any subdivision which proposes land disturbing activities, vegetation may be disturbed only to the minimum extent feasible for purposes of preparing access and building sites. The limits of such land disturbing activities shall be clearly shown on the submitted plans. The Fairfax County Arborist has jurisdiction within the Town of Clifton to determine which trees on the parcel to be subdivided are eligible to be preserved and the measures that the subdivider/developer must take to

so preserve in accordance with Fairfax County Public Facilities Manual standards. The Arborist's determination shall be implemented unless otherwise modified by the Planning Commission.

- h. Problems soils. Where a soil report would be required under the standards and criteria of the Fairfax County Public Facilities Manual the same shall be required in the Town of Clifton and may be used to determine appropriate standards and restrictions in the development of the subject property.
- i. Driveways shall not exceed a maximum grade of fifteen (15%) percent unless otherwise specifically approved by the Planning Commission.
- j. Utilities Underground. The Construction plans shall note that "All utilities when provided by the subdivider shall be installed underground in accordance with duly adopted County standards, as established in the Fairfax County Public Facilities Manual. All other utilities shall be installed underground in accordance with standards of utility practice for underground construction, which standards and any amendments thereto shall be furnished to the Commission by the Utility Company, and in accordance with standards furnished to and regulations issued by the applicable regulatory authority."
- k. Tentative grading of lot development shall be shown.
- l. The subdivider shall provide on the construction plans a properly qualified certified engineer's or surveyor's statement that such improvements, when properly installed will be adequate for proper development. The highway engineer shall then recommend approval or disapproval of the plans. The subdivider shall also provide any other information required by the highway engineer.

Sec.10-40.COMPLIANCE WITH FAIRFAX COUNTY'S EROSION AND SEDIMENTATION CONTROL AND CONSERVATION ORDINANCE

Compliance with Fairfax County's Erosion and Sedimentation Control and Conservation Ordinance is required.

Sec.10-41.APPROVAL TIMEFRAME AND PROCEDURE FOR SUBDIVISION CONSTRUCTION PLANS

- a. The Construction plan shall be acted upon within sixty (60) days, except under abnormal circumstances, from receipt thereof either by the Planning Commission Secretary or by the Commission's consultant. Determination as to who will receive the plan for review, and the number of copies required shall be made by the Planning Commission at the subdivider's request prior to plan submission.
- b. There shall be a charge for examination and approval or disapproval of every subdivision construction plan reviewed by the Planning Commission or its consultant in accordance with section 10-26. The balance of any plan review and site inspection fees due shall be paid prior to the plan approval.
- c. Prior to approval of the construction plan by the Commission, the Commission shall have received recommendations for approval, or approvals from all other Town, County or State Agencies as may be appropriate.
- d. All off-site easement plats required for the subdivision shall be approved and recorded prior to plan approval.
- e. Execution of an erosion and sedimentation control agreement and payment of an escrow deposit shall be required prior to plan approval.
- f. Payment of the subdivision's pro rata share for off-site improvements shall be made prior to approval of the subdivision construction plans. In the event that the Town of Clifton or County of Fairfax establishes a general sewer, water and/or drainage improvement program for an area having related and common sewer, water and drainage conditions, the subdivider of land shall pay in cash his pro rata share of the cost of providing reasonable and necessary sewerage, water, and drainage facilities, located outside the property limits of the land owned or controlled by the subdivider but necessitated or required, at least in part, by the construction or improvement of the subdivision or development.

1. The subdivider's pro rata share shall be limited to the proportion of such total estimated cost which the increased sewage flow, water flow and/or increased volume and velocity of storm water runoff to be actually caused by the subject subdivision or development bears to the total estimated volume and velocity of such sewage, water and/or runoff from such area in its fully developed state.
2. Each such payment received shall be expended only for the construction of those facilities for which the payment was required, and until so expended shall be held in an interest-bearing account for the benefit of the subdivider.

Sec.10-42.LIFE OF SUBDIVISION CONSTRUCTION PLANS

The construction plan for the required physical improvements shall be submitted and approved prior to the approval of the final plats. The life of subdivision construction plans shall be one (1) year. The approval of the construction plans and specifications shall be null and void if the final subdivision plat is not recorded in the County land records within one (1) year of such approval of the construction plans unless such period of one (1) year is extended by the Planning Commission. All extensions will be subject to all ordinances and codes then in effect.

ARTICLE 8

- f. Distances and bearings must balance and close with an accuracy of not less than one in ten thousand.
- g. The curve data for all curves along all street center lines and all individual lot lines shall be shown in detail at the curve data table containing the following: Delta, radius, arc, tangent, chord and chord bearings.

Sec.10-44.PREREQUISITES FOR APPROVAL

The plat shall not be approved until the subdivider has complied with all conditions of the preliminary plat and has complied with the general requirements and minimum standards of design in accordance with this Ordinance. Payment of all final plat review fees, including pro rata share for offsite improvements and any additional plat review expenses incurred by the Commission shall occur prior to the Commission's approval of the final plat. Before any plat will be finally approved by the Planning Commission and before there will be acceptance of dedication for public use of any right-of-way located within the proposed subdivision which has constructed therein, or proposed to be constructed therein, any street, curb, gutter, sidewalk, drainage or sewerage system or other improvement, financed or to be financed in whole or in part by private funds, the subdivider thereof shall furnish to the Planning Commission one of the following:

- b. Approval of the final plat shall be written on the face of the plat by the Planning Commission.

Sec.10-46.LIFE OF FINAL PLATS

The subdivider shall record the plat within six (6) months after final approval; otherwise the Planning Commission shall mark the plat "void" and return same to subdivider.

- a. Approval of the final plat of subdivision or sections thereof shall not be deemed the acceptance by the Town, County or State of any street or other public space shown on the plats for maintenance repair or operation thereof.

Sec.10-47.AS BUILT PLANS

Upon final completion, there shall be submitted a certified "as built" plan showing all improvements: Storm and sanitary sewer location, except the building and service connection, shall be certified correct by a registered professional engineer or certified land surveyor registered in the state. All other utility locations, except building and service connections, shall thereafter be shown on this or similar plan with the notation "from available records"; such plan and records shall be furnished by the utility company whose location is shown thereon.

Sec.10-48.ACCEPTANCE OF STREETS

Sec.10-49.BOND RELEASE

- a. Unless otherwise stated in the provisions of this Ordinance, bonding and bond release procedures will be as set forth in the Fairfax County Public Facilities Manual.
- b. The subdivider's bond shall not be released until construction has been inspected and approved by the Planning Commission's authorized inspection agency.
- c. General Provisions. Within thirty (30) days of the Planning Commission's receipt of written notice by the subdivider of completion of part or all of any facilities required to be constructed, partial or final release of the bond shall be made unless the Commission notifies the subdivider in writing of nonreceipt of approval by any applicable state or county agency, or of any specified defects or deficiencies in construction and suggested corrective measures prior to the expiration of the thirty (30) day period.
 1. A copy of the notice sent to the Commission shall at the same time also be sent by the subdivider to the Commission's authorized inspection agency. The inspection agency shall inspect the completed facilities and provide a recommendation to the Planning Commission to approve or not approve the requested partial or final release of the bond and reasons therefore prior to Planning Commission action on the request. The costs incurred by the Commission's inspection agency for the inspection of the subject facilities shall be charged to and paid for by the subdivider.
 2. If no such action is taken by the Planning Commission within the specified thirty (30) day time period the request shall be deemed approved and a partial release shall be granted to the subdivider. No final release shall be granted until after expiration of such thirty (30) day period and there is an additional request in writing sent by certified mail return receipt to the Chairman of the Planning Commission. The Planning Commission shall act within ten (10) working days of receipt of the request; then if no action is taken the request shall be deemed approved and final release granted to the subdivider.
- d. Partial Bond Release. The subdivider may, provided the facilities covered by a bond are free of defects or deficiencies in construction thereof, request a partial release of the bond, provided, however, that the face amount of the bond after partial release shall never be less than the original bond estimate amount or the cost to complete the improvements, whichever is greater. Requests for partial release shall be in writing and sent by certified mail to the Chairman of the Planning Commission. A copy of the request shall at the same time be sent to the Commission's inspection agency. Such requests for partial release shall be approved by the Planning Commission within thirty (30) days after receipt of the written request unless the subdivider is notified in writing of any specified defects or deficiencies in construction and suggested corrective measures.

ARTICLE 9

RESUBDIVISIONS AND BOUNDARY LINE ADJUSTMENTS, CONSOLIDATION OF LOTS

Sec.10-57.GENERAL PROVISIONS - RESUBDIVISIONS AND BOUNDARY LINE ADJUSTMENTS

Boundary line adjustments are considered subdivisions and applications for such are subject to the provisions of this Ordinance. However, where the Commission finds that there may be no need for public improvements, an expedited review process may be permitted. When the Commission deems that the advice of a consultant is necessary for application review, the cost to the applicant shall be as is set forth in section 10-26 and section 10-58.b of this Ordinance. In the event that a boundary line adjustment involves parcels of land owned by different property owners, each property owner must make application under this section and pay any required fees or costs.

A proposed boundary line adjustment must meet the following minimum requirements:

- a. No lot or parcel is made nonconforming as to required size or width nor is public street frontage reduced below minimum allowed standards for any parcel.
- b. No new streets are proposed, nor will new streets be needed to provide future access to the parcels or lots if developed.
- c. No boundary line adjustment may result in more than one reduction or increase in the lot area or width of any parcel or lot.
- d. No boundary line adjustment may result in a lot size increase of more than 25 percent of the lot to be increased.
- e. No boundary line adjustment shall make any existing nonconforming lot any more nonconforming.

Sec.10-58. GENERAL PROVISIONS - CONSOLIDATION OF LOTS

- a. Consolidation of lots requires review and approval by the Planning Commission.
- b. The consolidation of lots shall not be allowed in the event that the lots to be consolidated are of different zoning classifications.
- c. If an application for consolidation of lots is approved, the newly consolidated lot shall be duly recorded in the land records of Fairfax County.

Sec.10-59.PROCEDURE FOR BOUNDARY LINE ADJUSTMENTS AND CONSOLIDATION OF LOTS

- a. A request for a boundary line adjustment, or a consolidation of lots shall be submitted as an application to the Secretary of the Planning Commission fifteen (15) days prior to the Planning Commission hearing date. The number of such copies shall be as set forth in the Commission's administrative procedures. The request will state the reason for the boundary line adjustment or the consolidation of lots and will state that the provisions of section 10-57 or 10-58, as applicable of the Subdivision Ordinance have been met. A certified plat drawn no smaller than at a scale of fifty (50) feet to the inch and showing the location of all existing structures and existing and proposed boundary lines together with setbacks to existing buildings shall be submitted as part of the application. Notice shall be provided to property owners in the area as required by section 10-27 of this Ordinance.

- b. The initial review and inspection fee deposit for an application to adjust an existing boundary line shall be \$150.00. The subdivider shall be responsible for those costs incurred by the Planning Commission or its consulting engineer in the examination of the application. The review fee for a lot consolidation shall be \$150.00.
- c. If existing or proposed building sites are involved in the case of a boundary line adjustment, approval of the plat by the County Health Department will be required prior to approval by the Planning Commission.
- d. The Commission may require construction of street widening, dedication of right of way, easements and construction for storm drainage, walks, trails, and other public uses, and may impose other appropriate restrictions or requirements on the plat.
- e. A determination will be made by the Planning Commission within sixty (60) days that the proposed boundary line adjustment or consolidation of lots meets the minimum standards outlined and the application may be approved or denied. If the application is denied in the case of a boundary line adjustment, an application for subdivision of the parcels in questions may be filed.

Sec. 11-1 . TITLE

This Ordinance (hereinafter "the Ordinance") shall be known and may be cited as the Town of Clifton Chesapeake Bay Preservation Ordinance.

Sec. 11-2. FINDINGS OF FACT

The Chesapeake Bay is one of the most important and productive estuaries in the world, providing substantial economic and social benefits to the people of the Town of Clifton and the Commonwealth of Virginia. Healthy state and local economies are integrally related to and dependent upon the health of the Chesapeake Bay; therefore the general welfare of the people of the Commonwealth depends upon the health of the Bay.

Waters of the Chesapeake Bay and its tributaries have been degraded significantly by nonpoint source pollution. By contributing to nonpoint source pollution, damage to and improper development of lands hereby designated by the Town Council as Chesapeake Bay Preservation Areas (hereinafter CBPA's) threatens public safety and the general welfare. These lands need to be protected from destruction and damage in order to protect the quality of water in the Bay and consequently the quality of life in the Town of Clifton and the Commonwealth of Virginia.

Sec. 11-3. PURPOSE

- a. The Chesapeake Bay Preservation Ordinance for the Town of Clifton is enacted to implement the requirements of the Chesapeake Bay Preservation Act (Sec.10.1-2100 et seq of the Code of Virginia) and its subsequent regulations (Chesapeake Bay Preservation Area Designation and Management Regulations (9VAC10-20-10 et seq.)). It is the policy of the Town of Clifton to protect the quality of water in the Chesapeake Bay and its tributaries and, to that end, to require all land uses in CBPA's and development in CBPA's to avoid or minimize damage to CBPA's in an effort to achieve the following:
 1. protection of existing high-quality state waters and restoration of all other state waters to a condition or quality that will permit all reasonable public uses and will support the propagation and growth of all aquatic life, including game fish, which might reasonably be expected to inhabit them;
 2. safeguarding the clean waters of the Commonwealth from nonpoint source pollution;
 3. prevention of any increase in nonpoint source pollution;
 4. reduction of existing nonpoint source pollution;
 5. promotion of water resource conservation in order to provide for the health, safety and welfare of the present and future citizens of the Town of Clifton and the Commonwealth of Virginia.
- b. GOAL AND INTENT. The goal and intent of the ordinance is to minimize potential nonpoint source pollution from stormwater runoff, minimize potential erosion and sedimentation, reduce the introduction of nutrients and toxins into state waters affecting the Chesapeake Bay, maximize rainwater infiltration while protecting groundwater, and ensure the long-term performance of the measures hereby employed.

Sec. 11-4. AUTHORITY AND ADMINISTRATION

- a. Authority. This ordinance is enacted under the authority of section 10.1-2100 *et seq.* of the Code of Virginia (the Chesapeake Bay Preservation Act) and section 15.2-2283 of the Code of Virginia. Authority to protect water quality is also provided by Title 15.2-2283 of the Code of Virginia

- b. Administration. The Planning Commission is hereby delegated the authority and power by the Town of Clifton to administer this Ordinance. The Commission shall perform these duties by assuring that all requirements set forth in this Chapter 11, "Chesapeake Bay Preservation Act Ordinance," are evaluated and duly considered by the Commission in making their recommendations to the Town Council for the approval (or disapproval) of any plans of development including Use Permits, Subdivision development and construction plats and plans or other such similar requests/applications. Commission recommendations will be pursuant not only to this Chapter, but shall also be governed by the underlying Chapters of the Town of Clifton Ordinances including: the "Zoning Ordinance" and the "Subdivision Ordinance," respectively.
- c. Administration Technical Assistance. The Planning Commission may require external (i.e., consultant, engineer, and/or inspection or review agent) technical assistance in the analysis and review of Use Permit Applications and/or Subdivision plats and plans to determine compliance with the requirements of this ordinance. In such instances the Commission is granted authority by the Town Council to obtain that assistance from: (1) consultant(s), (2) licensed engineer(s), (3) review agency (ies) (i.e., Chesapeake Bay Local Assistance Department, or other), and/or (4) inspection agency (ies) and to require that the applicant be responsible for those costs incurred by the Commission. The "Subdivision Ordinance" further delineates those fees as may be required of the applicant.

Sec. 11-5. DEFINITIONS

The following words and terms used in the Ordinance have the following meanings, unless the context clearly indicates otherwise.

- a. "Best Management Practice (BMP)" means a practice, or combination of practices, that is determined by a state or designated area-wide planning agency to be the most effective, practicable means for preventing or reducing the amount of pollution generated by nonpoint sources to a level compatible with water quality goals of this Ordinance.
- b. "Buffer area" means an area of natural or established vegetation managed to protect other components of a Resource Protection Area and state waters from significant degradation due to land disturbances.
- c. "Chesapeake Bay Preservation Area (CBPA)" means any land designated by Town of Clifton pursuant to section 11-8 of this Ordinance and Section 2107 of Title 10.1 of the Code of Virginia. The Chesapeake Bay Preservation Area consists of a Resource Protection Area (RPA) and a Resource Management Area (RMA).
- d. "Development" means the construction or substantial alteration of residential, commercial, industrial, institutional, recreational, transportation, or utility facilities or structures.
- e. "Floodplain" means all lands that would be inundated by flood water as a result of a storm event of a 100-year return interval.
- f. "Highly erodible soils" means soils (excluding vegetation) with an erodibility index (EI) from sheet and rill erosion equal to or greater than eight. The erodibility index for any soil is defined as the product of the formula $RKLS/t$, where K is the soil susceptibility to water erosion in the surface layer; R is the rainfall and runoff; LS is the combined effects of slope length and steepness; and T is the soil loss tolerance.
- g. "Highly permeable soils" means soils with a given potential to transmit water through the soil profile. Highly permeable soils are identified as any soil having a permeability equal to or greater than six inches of water movement per hour in any part of the soil profile to a depth of 72 inches (permeability groups "rapid" and "very rapid") as found in the "National Soils Survey Handbook" of November 1996 in the "Field Office Technical Guide: of the U.S. Department of Agriculture Natural Resources Conservation Service.
- h. "Impervious cover" means a surface composed of any material that significantly impedes or prevents natural infiltration of water into the soil. Impervious surfaces include, but are not limited to: roofs, buildings, streets, parking areas, and any concrete, asphalt, or compacted gravel surface.

- i. "Land Disturbing Activity" means any practice by which the existing contour/surface area of the soil totalling 2500 square feet or greater is modified, provided, however, that this does not apply to activities in the Resource Protection Area.
- j. "Nonpoint Source Pollution" means contamination from diffuse sources that is not regulated as point source pollution under section 402 of the Clean Water Act.
- k. "Nontidal wetlands" means those wetlands other than tidal wetlands that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, as defined by the U.S. Environmental Protection Agency pursuant to section 404 of the Federal Clean Water Act, in 33 CFR 328.3b.
- l. "Plan of Development" means any process for plan review under the provisions of this Ordinance and the Subdivision Ordinance and the Zoning Ordinance designed to ensure compliance with §10.1-2109 of the Act and this Ordinance, prior to the issuance of a building permit.
- m. "Public road" means a publicly-owned road designed and constructed in accordance with water quality protection criteria at least as stringent as requirements applicable to the Virginia Department of Transportation, including regulations promulgated pursuant to i. the Erosion and Sediment Control Law (§10.1-560 *et seq.* of the Code of Virginia) and ii. the Virginia Stormwater Management Act (§10.1-603 *et seq.* of the Code of Virginia). This definition includes those roads where the Virginia Department of Transportation exercises direct supervision over the design or construction activities, or both, and cases where secondary roads are constructed or maintained, or both, by a local government in accordance with the standards of that local government.
- n. "Redevelopment" means the process of developing land that is or has been previously developed, to the extent that there is no net increase in the building footprint.
- o. "State waters" means all waters on the surface or in the ground, wholly or partially within or bordering the Commonwealth or within its jurisdiction.
- p. "Substantial alteration" means any expansion or modification of a building, or development which would result in a disturbance of land exceeding an area of 2500 square feet in the Resource Management Area only.
- q. "Resource Management Area" means that component of the Chesapeake Bay Preservation Area that is not classified as the Resource Protection Area. RMAs include land types that, if improperly used or developed, have the potential for causing significant water quality degradation or for diminishing the functional value of the Resource Protection Area.
"Resource Protection Area" means that component of the Chesapeake Bay Preservation Area comprised of lands adjacent to water bodies with perennial flow that have an intrinsic water quality value due to the ecological and biological processes they perform or are sensitive to impacts which may result in significant degradation to the quality of state waters.
- r. "Use" means an activity on the land other than development, including, but not limited to agriculture, horticulture, and silviculture.
- s. "Water Dependent Facility" means a facility development of land that cannot exist outside of the Resources Protection Area. These facilities are limited to the outfall structure of storm sewers.

Sec. 11-6. SEVERABILITY

If any provision herein is declared unlawful, it shall be struck from the text leaving the remaining provisions in effect.

Sec. 11-7. VALIDITY

If any of the Articles, Sections, Paragraphs, sentences, clauses or phrases of this Ordinance shall be declared unconstitutional or invalid by a valid judgment or decree of a court or competent jurisdictions, such unconstitutionality or invalidity shall not affect the validity of the Ordinance in its entirety or any of the remaining Articles, Sections, Paragraphs, sentences, clauses, and phrases.

Sec. 11-8. AREAS OF APPLICABILITY

This ordinance shall apply to all lands in Chesapeake Bay Preservation Areas (CBPA's), which shall include lands that meet the designation criteria in this section. CBPA's are divided into Resource Protection Areas (hereinafter "RPA") and Resource Management Areas (hereinafter "RMA") that are subject to the use restrictions and regulations in this ordinance. RPA's are protected from most development because, left intact, they function to improve and protect water quality. RMA's, which include all areas in the Town of Clifton outside of RPA's, are regulated to protect both the associated RPA and water resources from degradation resulting from development and land disturbing activity.

- a. RPA's. Resource Protection Areas consist of sensitive lands adjacent to water bodies with perennial flow that have either an intrinsic water quality value due to the ecological and biological processes they perform or that are sensitive to uses or activities such that the use results in significant degradation to the quality of State Waters. In their natural condition, these lands provide for the removal, reduction, or assimilation of nonpoint source pollution entering the Bay and its tributaries. RPA's shall include land characterized by one or more of the following features:
 1. A Nontidal Wetland connected by surface flow and contiguous to a tidal wetland or water body with perennial flow; and
 2. A buffer area consisting of any land within 100 feet of a feature listed in (1) above and along both sides of any water body with perennial flow.
- b. RMA's. Resource Management Areas means that component of the Chesapeake Bay Preservation Area (CBPA) comprised of lands that, if improperly used or developed, have a potential for causing significant water quality degradation or for diminishing the functional value of the Resource Protection Area. The RMA is generally characterized by the following land categories: floodplains, highly erodible soils, including steep slopes; highly permeable soils; and nontidal wetlands not included in the RPA.

Sec. 11-9. INCORPORATION OF CBPA BOUNDARIES INTO ZONING ORDINANCE

- a. Incorporating RPA's and RMA's by Reference. The above designation criteria which define the boundaries of RPA's and RMA's are incorporated by reference with this section into the Town of Clifton Ordinance including the "Zoning Ordinance" and the "Subdivision Ordinance." The Clifton CBPA Map shows the general location of CBPA's and should be considered by persons contemplating activities within the Town of Clifton prior to engaging in a regulated activity. However, this Map should be considered a planning tool. Boundaries of RPA's shall be delineated by the applicant during the plan of development process as outlined in Section 11-15 of this Ordinance or through the review of a water quality impact assessment as required Section 11-15.c or as established by the Town Council and in accordance with provisions of this Ordinance.
- b. RPA Boundaries. The boundaries of RPAs and RMAs are drawn based on available mapping resources. The Town Council shall determine site specific boundaries based on more reliable field data developed and examined during the plan of development process or through the review of a water quality impact assessment.
 1. It is the burden of the applicant to show the appropriate RPA boundaries, applying the criteria in 11-8 above, in all subdivision plats and plans (including water quality impact assessments), development or construction plats and plans and/or Use Permit Applications submitted for review. Where RPA boundaries on the adopted map may differ from boundaries as determined from the text of this Ordinance, the text shall govern. Such boundary locations shown on plans of development can be approved, modified or disapproved by the Town Council.

2. Any landowner or agent of the landowner may submit certification from a professional engineer, land surveyor or landscape architect certified or licensed to practice in the Commonwealth of Virginia for review and approval by the Town Council.
- c. **Lands Meeting Definition of CBPA Component Presumed to Exist.** Lands that meet the above definition of a component of a CBPA (section 11-8 of the Ordinance) but not identified on the Clifton CBPA map are presumed to exist in the Town of Clifton and are hereby designated to be within the CBPA and protected under all of the terms and provisions of this ordinance.
 - d. **When this Ordinance Shall Govern.** Whenever any provision of this Ordinance imposes a greater requirement or a higher standard than is required in any State or Federal statute or other Town of Clifton or Fairfax County ordinance or regulation, the provision of this Ordinance shall govern. Whenever any provision of any State or Federal statute or other Town of Clifton or ordinance or regulation imposes a greater requirement or a higher standard than is required by this Ordinance, the provision of such State or Federal statute or other Town of Clifton ordinance or regulation shall govern.

Sec. 11-10. ALLOWED DEVELOPMENT IN RPA'S

Development shall be allowed in the RPA only when permitted by the Town Council and if it is water dependent as designated in this Ordinance, constitutes redevelopment as permitted in the underlying zoning district, and is in compliance with all requirements in this Ordinance. A water quality impact assessment shall be required for any proposed land distributing activity, redevelopment or development in accordance with Sec. 11-15.3 of this Ordinance.

Sec. 11-11. ALLOWED DEVELOPMENT IN RMA'S

Permitted uses, special permit uses, accessory uses, and special requirements shall be as established by the underlying zoning district, unless modified by the performance requirements set forth section 11-12.

Sec.11-12. GENERAL PERFORMANCE REQUIREMENTS FOR DEVELOPMENT AND REDEVELOPMENT IN CBPA'S

In order to attain the water quality objectives set forth in section 11-3 (the "purpose") of this ordinance, development and redevelopment in all components of CBPA's must meet and maintain the performance criteria set forth in sections 11-12 through 11-13.

- a. **When the Town Council Shall Approve a Development or Redevelopment.** The Town Council shall approve a proposed development or redevelopment greater than 2500 square feet only if it is found that the regulated activity is determined to be in accordance with this Ordinance and that the applicant has demonstrated to the Town Council by a preponderance of the evidence that the proposed development, or redevelopment meets or exceeds the following performance criteria:
 1. Any land disturbing activity that exceeds an area of 2,500 square feet shall be subject to a plan of development process, including the approval of a site plan in accordance with the provisions of the Zoning Ordinance or a subdivision plat in accordance with the Subdivision Ordinance. The construction of single family dwellings, septic tanks and drainfields shall not be exempt from this requirement.
 2. No more land shall be disturbed that is necessary to provide for the proposed use or development.
 3. Indigenous vegetation shall be preserved to the maximum extent practicable consistent with the use or development proposed;
 4. Land development shall minimize impervious cover consistent with the proposed use or development or redevelopment.
 5. Stormwater Quality Management Requirements:

- A. For any development or redevelopment, stormwater runoff shall be controlled by the use of best management practices (BMP's) consistent with the water quality protection provisions of the Virginia Stormwater Management Regulations (4VAC3-20-10 et.seq.).
 - i. For development, the post-development nonpoint source pollution load shall be reduced by no less than fifty (50) percent compared to the nonpoint source pollution load projected for the development without treatment.
 - ii. For redevelopment sites, the nonpoint source pollution load shall be reduced by at least ten (10) percent. The Town Council may waive or modify this requirement for redevelopment sites that originally incorporated water quality BMPs, provided the following provisions are satisfied:
 - a. In no case may the post-development nonpoint source pollution runoff load exceed the pre-development load;
 - b. Runoff pollution loads must have been calculated and the BMPs selected for the expressed purpose of controlling nonpoint source pollution;
 - c. If BMPs are structural, evidence shall be provided that facilities are in good working order and performing at the design levels of service. The Town Council may require review of both the original structural design and maintenance plans to verify this provision. A new maintenance agreement may be required to ensure compliance with this Ordinance.
 - iii. For redevelopment, both pre- and post-development loadings shall be calculated by the same procedures. However, where the design data is available, the original post-development nonpoint source pollution loadings can be substituted for the existing development loadings.
- 6. Land upon which agricultural activities are being conducted shall undergo a soil and water quality conservation assessment. Such assessments shall evaluate the effectiveness of existing practices pertaining to soil erosion and sediment control, nutrient management and management of pesticides, and where necessary, results in a plan that outlines additional practices needed to ensure that water quality protection is accomplished consistent with this Article.
- 7. Development and redevelopment exceeding 2500 square feet of land disturbance (including construction of all single family houses, septic tanks and drainfields) must comply with a local erosion and sedimentation control ordinance which by Town of Clifton Resolution pursuant to §21-89.5 is the Fairfax County Erosion & Sediment Control Ordinance. That ordinance is administered for the Town of Clifton by Fairfax County.
- 8. Onsite sewage treatment systems not requiring a Virginia Pollutant Discharge Elimination System (VPDES) permit shall:
 - a. have pump-out accomplished for all such systems at least once every five years
 - b. for new construction, provide a reserve sewage disposal site with a capacity at least equal to that of the primary sewage disposal site. Building shall be prohibited on the area of all sewage disposal sites until the structure is served by public sewer or an onsite sewage treatment system which operates under a permit issued by the State Water Control Board. All sewage disposal records shall be administered to provide adequate notice and enforcement;
 - c. compliance with Chapter 68 of the Fairfax County Code shall be deemed to constitute compliance with this requirement.

This requirement shall not apply to any parcel of land for which a site plan or preliminary subdivision plat was filed on or before May 21, 1973, and approved by November 20, 1976, if the Director of Health Services determines

the parcel to have insufficient capacity to accommodate a reserve sewage disposal site except as may be required in the Commonwealth of Virginia Sewage Handling and Disposal Regulations.

9. The Town Council shall require certification on all plans of development and redevelopment that all wetlands permits required by law will be obtained prior to commencement of land disturbing activities. No land disturbing activity requiring wetlands permits shall commence until all such permits have been obtained by the applicant.
- b. The Town Council shall ensure that these standards are met through the Use Permit Application review process of the Zoning Ordinance and/or through development and construction plats and plans reviewed as required by the Subdivision Ordinance for Subdivisions. Also, any development or redevelopment exceeding 2500 square feet of disturbance must be reviewed as to compliance with this ordinance, as well as with the underlying ordinances including the Zoning Ordinance and the Subdivision Ordinance.

Sec. 11-13. ADDITIONAL PERFORMANCE REQUIREMENTS FOR RPA'S

- a. Roads and Driveways that are Not Exempt. Roads and driveways not exempt under this ordinance may be constructed in or across Resource Protection Areas if each of the following conditions is met:
 1. The Town makes a finding that there are no reasonable alternatives to aligning the road or driveway in or across a Resource Protection Area;
 2. The alignment and design of the roadway are optimized, consistent with other applicable requirements, to minimize 1. encroachment in the Resource Protection Area and 2. adverse effects on water quality;
 3. The design and construction of the road or driveway satisfy all applicable criteria of this ordinance, including submission of a water quality impact assessment;
 4. The plan for the road or driveway proposed in or across the RPA is reviewed by the Town as part of a use permit, subdivision and/or plan of development approval process.
- b. When the Town Council may Permit a Water Dependent Facility. The Town Council may permit redevelopment or development of a new or expanded water-dependent facility in a RPA provided that the applicant has demonstrated by a preponderance of the evidence that the regulated activity meets or exceeds the following standards:
 1. all performance requirements set forth in this ordinance;
 2. the non-water dependent component of a proposed development is located outside of the RPA;
 3. access is provided with the minimum disturbance necessary; where possible, a single point of access will be provided;
 4. the activity is consistent with the requirements of the comprehensive plan;
 5. redevelopment in a RPA shall be permitted only if there is no increase in the amount of impervious cover, no further encroachment within the RPA and it conforms to stormwater management requirements and erosion and sediment control requirements of this ordinance.
- c. Buffer requirements.
 1. To minimize the adverse effects of human activities on the other components of the RPA, state waters, and aquatic life, a 100-foot wide buffer area of vegetation that is effective in retarding runoff, preventing erosion, and filtering nonpoint source pollution from runoff shall be retained, if present, and established where it does not exist.

- A. The 100-foot buffer area adjacent to any component of the RPA and along both sides of a water body with perennial flow shall be deemed to achieve a 75% reduction of sediments and a 40% reduction of nutrients.
- B. Where land uses such as agriculture or silviculture within the area of the buffer cease and the lands are proposed to be converted to other uses, the full 100-foot wide buffer shall be reestablished. In reestablishing the buffer, management measures shall be undertaken to provide woody vegetation that assures the buffer functions set forth in this Ordinance.
- C. In order to maintain the functional value of the buffer area, indigenous vegetation may be removed only, as permitted by the designated authority, to provide for reasonable sight lines, access paths, general woodlot management, subject to the following:
 - i. Trees may be pruned or removed as necessary to provide for sight lines and vistas, provided that where removed, they shall be replaced with other vegetation that is equally effective in retarding runoff, preventing erosion, and filtering nonpoint source pollution from runoff.
 - ii. Any path shall be constructed and surfaced so as to effectively control erosion.
 - iii. Dead, diseased, or dying trees or shrubbery and noxious weeds (such as Johnson grass, kudzu, and multiflora rose) may be removed and thinning of trees may be allowed pursuant to sound horticultural practice as recommended by the Town or by a professional forester, arborist, or County extension agent, upon review and approved by the Town.
 - iv. Artificial maintenance of buffers with chemical fertilizers, herbicides and pesticides shall be avoided except after other efforts to preserve or establish vegetation in a buffer have failed.
- D. Modifications to buffer requirements.
 - i. When the application of the buffer area would result in the loss of a buildable area on a lot or parcel recorded prior to October 1, 1989, encroachments into the buffer area may be allowed through an administrative process in accordance with the following criteria:
 - a. encroachments into the buffer area shall be minimum necessary to achieve a reasonable buildable area for a principal structure and necessary utilities;
 - b. if practicable, a vegetated area that will maximize water quality protection, mitigate the effects of the buffer encroachment, and is equal to the area of encroachment into the buffer area shall be established elsewhere on the lot or parcel; and
 - c. the encroachment may not extend into the seaward 50 feet of the buffer area.

Sec. 11-14. ADMINISTRATIVE WAIVERS AND EXEMPTIONS FROM THE CHESAPEAKE BAY PRESERVATION ORDINANCE

- a. Nonconforming Use and Development Waivers. The Town Council may permit the continued use, but not necessarily the expansion of any structure in existence on the date of the adoption of this Ordinance. No change or expansion of use shall be allowed with the exception that:
 - 1. The Planning Commission may grant a nonconforming use and development waiver for structures on legal nonconforming lots or parcels to provide for remodeling and alterations to such nonconforming structures provided that:
 - A. There will be no net increase in nonpoint source pollution load;

- B. Any development or land disturbance exceeding an area of 2,500 square feet complies with all erosion and sediment control requirements of this Article.
 2. An application for a nonconforming use and development waiver shall be made to and upon forms furnished by the Planning Commission and shall include for the purpose of proper enforcement of this Ordinance, the following information:
 - A. Name and address of applicant and property owner;
 - B. Legal description of the property and type of proposed use and development;
 - C. A sketch of the dimensions of the lot or parcel, location of buildings and proposed additions relative to the lot lines, and boundary of the Resource Protection Area;
 - D. Location and description of any existing private water supply or sewage system.
 3. A nonconforming use and development waiver shall become null and void twelve months from the date issued if no substantial work has commenced.
 4. An application for the expansion of a nonconforming principal structure may be approved by the designated authority through an administrative review process provided that the following findings are made:
 - A. The request for the waiver is the minimum necessary to afford relief;
 - B. Granting the waiver will not confer upon the applicant any specific privileges that are denied by this Ordinance to other property owners in similar situations;
 - C. The waiver is in harmony with the purpose and intent of this Article and does not result in water quality degradation;
 - D. The waiver is not based on conditions or circumstances that are self-created or self-imposed;
 - E. Reasonable and appropriate conditions are imposed, as warranted, that will prevent the waiver from causing a degradation of water quality;
 - F. Other findings, as appropriate and required by Town of Clifton are met; and
 - G. In no case shall this provision apply to accessory structures.
- b. Public Utilities, Railroads, and Facilities Exemptions.
 1. Construction, installation, operation, and maintenance of electric, natural gas, fiber-optic and telephone transmission lines, railroads, and public roads and their appurtenant structures in accordance with (i) regulations promulgated pursuant to the Erosion and Sediment Control Law (§ 10.1-560 et seq. of the Code of Virginia) and the Stormwater Management Act (§ 10.1-603.1 et seq. of the Code of Virginia), (ii) an erosion and sediment control plan and a stormwater management plan approved by the Virginia Department of Conservation and Recreation, or (iii) local water quality protection criteria at least as stringent as the above state requirements will be deemed to constitute compliance with this Ordinance. The exemption of public roads is further conditioned by Section 11-13.1 of this Ordinance since section 11-13.1 outlines the conditions for construction of public roads.

2. Construction, installation, and maintenance of water, sewer, natural gas, underground telecommunications and cable television lines owned, permitted or both by the Town of Clifton shall be exempt from the criteria in this part provided that:
 - A. to the degree possible, the location of such utilities and facilities should be outside Resource Protection Areas;
 - B. No more land shall be disturbed than is necessary to provide for the proposed utility installation;
 - C. All such construction, installation, and maintenance of such utilities and facilities shall be in compliance with all applicable state and federal permits and designed and conducted in a manner that protects water quality;
 - D. Any land disturbance exceeding an area of 2,500 square feet complies with all erosion and sediment control requirements of this part.

Such records shall be kept and preserved for a period of three (3) years. The Collector shall have the power to examine such records at reasonable times and without unreasonable interference with the business of such person, for the purpose of administering and enforcing the provisions of this ordinance, and to make transcripts of all or any parts thereof.

Sec. 16-08. PENALTY & INTEREST FOR FAILURE TO FILE RETURN OR REMIT TAX WHEN DUE

- a. If any person shall fail to file a tax return required by this Ordinance when due, the collector shall assess a penalty of ten percent (10%) of the tax assessable on such return, or ten dollars (\$10.00), whichever is greater; provided, however, that the penalty shall in no case exceed the amount of the tax assessable. The penalty shall be assessed on the day after such return is due. Any such penalty shall become a part of the tax.
- b. If any person shall fail to pay a tax imposed by this article, when due, the collector shall assess a penalty ten percent (10%) for the first month the taxes are past due, and five percent (5%) for each month thereafter, up to a maximum of 25% of the taxes collected but not remitted, or ten dollars (\$10.00), whichever is greater; provided, however, that the penalty shall in no case exceed the amount of the tax assessable. The penalty for failure to pay any tax shall be assessed on the day after the tax is due. Any such penalty shall become a part of the tax.
- b. In addition to the penalty on delinquent taxes imposed under this Ordinance, there shall be added to such tax by the collector, interest at the rate of ten percent (10%) per annum on the taxes and penalty. The interest shall commence on the first day following the day such taxes are due and shall continue until all such taxes and penalty are paid. - c. Penalty and interest for failure to file a return or to pay a tax imposed under this Ordinance shall not be imposed if such failure was not the fault of the taxpayer, or was the fault of the collector, as the case may be. The failure to file a return or to pay a tax because of the death of the taxpayer or a medically determinable physical or mental impairment on the date the return or tax is due shall be presumptive proof of lack of fault on the taxpayer's part, provided the return is filed or the taxes are paid within thirty days of the due date; however, if there is a committee, legal guardian, conservator or other fiduciary handling the individual's affairs, such return shall be filed or such taxes paid within 120 days after the fiduciary qualifies or begins to act on behalf of the taxpayer. Interest on such taxes shall accrue until paid in full. Any such fiduciary shall, on behalf of the taxpayer, by the due date, file any required returns and pay any taxes which come due after the 120-day period. The collector shall make determinations of fault relating exclusively to failure to pay a tax, and of fault relating exclusively to failure to file a return.

Sec. 16-09. PENALTY FOR VIOLATION OF ORDINANCE

- a. Any person who willfully fails or refuses to file a return as required under this Ordinance or who makes a false statement with intent to defraud in such returns shall, upon conviction thereof, be guilty of (i) a Class 3 misdemeanor if the amount of the tax lawfully assessed in connection with the return is \$1,000 or less, or (ii) a Class 1 misdemeanor if the amount of the tax lawfully assessed in connection with the return is more than \$1,000.
- b. Except as otherwise provided in this Ordinance, any corporate or partnership officer, as defined in Virginia Code § 58.1-3906, or any other person required to collect, account for, or pay over the meals tax imposed under this ordinance, who willfully fails to collect or truthfully account for or pay over such tax, or who willfully evades or attempts to evade such tax or payment thereof, shall, in addition to any other penalties imposed by law, be guilty of a Class 1 misdemeanor.
- c. The Town may collect delinquent meals taxes by civil action or other authorized judicial, administrative, or statutory tax or debt collection procedure.
- d. The Town reserves the right to prosecute violations of this Ordinance under the applicable criminal provisions of state law.
- e. Each violation of or failure to comply with this Ordinance shall constitute a separate offense. Conviction of any such violation shall not relieve any person from the payment, collection or remittance of the tax as provided in this Ordinance.

Sec. 16-10. DUTY OF PERSON GOING OUT OF BUSINESS

Whenever any person required to collect and remit to the Town any tax imposed by this Chapter shall cease to operate or otherwise dispose of his or her business, the tax shall immediately become due and payable, and the person shall immediately make the collector a report and remittance thereof.

Sec. 16-11. ENFORCEMENT

- a. It shall be the duty of the collector to ascertain the identity of every seller in the Town liable for the collection of the tax imposed by this Chapter, who fails, refuses or neglects to collect such tax or to make the reports and remittances required by this Chapter. The collector may summon the taxpayer or any other person to appear before him at his office, to answer, under oath, questions relating to the tax liability of any and all taxpayers and/or to produce documents relating to such tax liability. The collector may seek a conviction or other civil remedy, including injunction, against such person.
- b. Any such person who refuses to answer, under oath, questions touching any person's tax liability shall be deemed guilty of a Class 4 misdemeanor. Each day's refusal to answer such questions shall constitute a separate offense.
